Collection & Payment Solutions

E-payment Gateway

This online payment service is designed to allow companies and retailers to manage their transactions online through the payment gateway that guarantees maximum security levels by encrypting the information of both customers and businesses.

ePay

ePay is a service that facilitates the collection of payments for businesses by sending the invoice in an SMS to the customer, who can settle the amount online using his debit card.

POS

A special account statement for each device, independent from the other transactions made on the company's account.

- Availability for temporary exhibitions
- Safe remittance of funds
- A brief statement can be issued by the device for all the transactions made throughout the day

Deposit Card Service

With the deposit service, you can:

- Use the deposit card at ATMs in all Boubyan branches
- Deposit funds and cheques 24/7
- Enjoy the highest levels of security and confidentiality
- Issue up to 5 cards per account, free of charge

Innovative Banking Solutions

Boubyan Corporate App

Many innovative banking services are easily accessible through Boubyan App and available around the clock to help you manage your accounts, respond to queries, check accounts balances and get detailed account statements in addition to many other services.

Request Chequebooks and Audit Certificates

To facilitate your business operation you can request chequebooks and issue audit certificates online.

Local and International Transfer Services

The online transfer service is a smooth and simple solution with various features that allows you to:

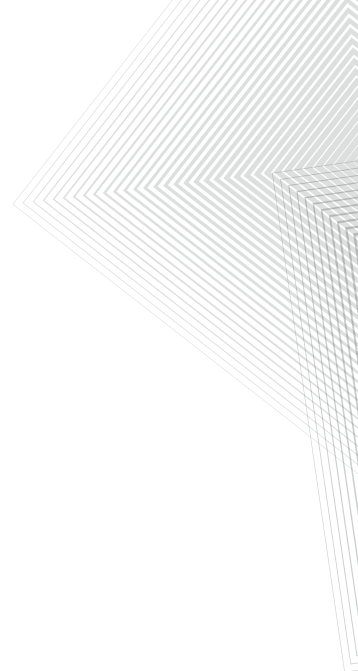

- Transfer between your accounts or to any other Boubyan account
- Make local and international transfers
- Make single or multiple transfers

Reviewing Your Account Details and Printing & Downloading Account Statements

You can review your company's accounts easily at any time to support the management and organization of your business

You can also access your account statements, and manage them by downloading & printing them any time at your convenience

Payroll Solutions

Staff Payroll Transfer

The payroll upload service is a gateway that facilitates the online processing of payroll and other incentives for employees who have accounts at Boubyan Bank or any other local bank.

Payment Solutions

Corporate Visa Credit Card

The Visa Corporate Credit Card offers you various benefits and features in addition to many great offers and experiences from leading brands.

- The Visa business banking reporting tool to monitor your company's spending
- Access to 25 airport lounges at many airports around the world
- The YQ, meet and greet service
- Medical assistance and travel assistance at a global level
- Global concierge services

Visa Business Banking Reporting Tool

This simple and effective tool allows you to:

- Monitor your card's spending
- Add receipts or remarks and other documents
- Customize reports to view the data as you prefer

Corporate Petty Cash Cards

The prepaid corporate petty cash card is part of the integrated business banking services that help companies manage their banking transactions smoothly and easily. With the new corporate petty cash card, you can manage your business daily expenses in a simple and direct manner as well as control and monitor the spending with ease and flexibility.

Government Transactions Card

To cover the charges of the company's transactions with ministries and governmental entities you can request to issue this card and set its daily limit. This card cannot be used at the bank's ATMs, or to perform any other banking transactions inside branches or through the online business banking services, the IVR service or any other P.O.S.

Letters of Credit

Letters of credit are a payment method mostly used in international trade transactions. Through a letter of credit, the bank guarantees that the seller will collect a specified amount from a specific buyer within a specific time window.

Letters of Guarantee

The letter of guarantee is a type of contract issued by the bank on behalf of the customer who entered into a purchase contract for goods from a vendor. The LG guarantees the payment of any financial obligations to the vendor in case the customer defaults on payment.
