Dear Valued Stakeholders, Welcome to Boubyan Group's 2nd Environmental, Social and Governance (ESG) report, outlining our consistent journey underpinned by the Group's focus as enablers of establishing ESG excellence – and setting the cornerstone towards the commitment we hold to our stakeholders in generating longterm sustainable values.

Throughout 2021, Boubyan has maintained strong momentum in its ESG achievements. Excellence in customer service was again affirmed in 2021 by our award as the Best Islamic Bank in Customer Service for the 11th year in a row, by Service Hero. In terms of our operating environment, despite repercussions from the COVID-19 pandemic and in light of the gradual return to normal life, Boubyan continued to achieve its strategic aspiration of sustained value creation, operating at utmost efficiency and affirming our excellence in digital services.

This has been evidenced by our launch of the first International Islamic Digital Bank "Nomo", offering Sharia'a-compliant wealth management and banking services from the UK for people residing in the GCC region and creating a seamless digital experience. Furthermore, Boubyan Bank has signed an agreement with Dubai International Finance Corporation (DIFC) FinTech Hive to launch "Boubyan Bank Accelerator Program." The project aims to accelerate the growth and expansion of Kuwaiti startups and Small and Medium-Sized Enterprises (SMEs) and reflects the Bank's sustained support to young Kuwaitis' projects.

Exhibiting integrity, fairness, ethical conduct and equality is at the core of Boubyan's culture, being a Sharia'a-compliant organization. Thereby, Boubyan thrives to create a healthy gender representation within its workforce, specifically regarding empowering women in leadership positions. As of 2021, Boubyan has 52 female employees appointed at managerial level positions and 1 female present at Board level in our subsidiary BLME. We managed to attract and retain local talent, and the Kuwaitization percentage at Boubyan increased by 2.1% compared to 2020 performance, while the Kuwaitization rate at managerial levels increased by 4.5%.

At the community level, Boubyan remains as committed and socially responsible as always, having a leading role in the communities where we operate. We continued to reflect such commitment through conducting initiatives, campaigns, sponsorships and donations that are strategically selected to impact areas related to education, entrepreneurship, financial literacy, youth and social support. We managed to lower our greenhouse gas (GHG) emissions for scope III by 34% highlighting our contribution and responsibility towards climate change.

A reflection of our 2021 ESG journey is presented in further detail throughout our report, with more ESG aspirations to be achieved along the way. It is clear for Boubyan that ESG prosperity is essential for creating resilient long-term operational excellence, outlining a sustainable future to our stakeholders with purpose-led potential and meaningful, impactful created value.

Adel Abdul Wahab Al-Majed Group CEO

# **About This Repor**

Boubyan Group is renowned for its transparent communication and accountable commitment with its valued stakeholders—especially by publicly disclosing both the financial and non-financial performance.

"From Core Value" to "An ESG Journey," the 2021 Sustainability Report builds on the Group's baseline report, and continues to assess the Environmental, Social and Governance (ESG) impacts. It expands further in disclosing ESG metrics covering several key focus areas that concern customers, shareholders, employees, suppliers, and the community.

This report has been prepared in accordance with the Global Reporting Initiative (GRI) standards: Core Option and follows the GRI principles for defining report content and quality, as represented in Appendix 6.1. The sustainability Report 2021 has been developed with the support of RSM Consulting W.L.L.

Any mention of "Boubyan" or "Group" indicates group-wide data that covers: Boubyan Bank, Boubyan Capital, Boubyan Takaful, Boubyan National, BLME and BB2 Tech Co Digital and Technology Services Limited (herein BB2 Tech Co).

Boubyan's 2021 Sustainability Report is accessible to all stakeholders and provides timely and accountable information tailored to stakeholder needs. It appropriately responds to the material ESG topics that have been identified during the materiality exercise. The report outlines the Group's alignment to the United Nations Sustainable Development Goals (SDGs), New Kuwait Vision 2035 and Boursa Kuwait ESG disclosure guide.

All data and information disclosed in this report reflect activities undertaken during the reporting period of January 1, 2021 to December 31, 2021, unless otherwise noted. In many cases, Boubyan has reported data covering the fiscal year 2020, as well as the preceding year 2019, to present a wider view of Boubyan's ESG performance over a 3-year period.

Boubyan has an array of channels that provide a transparent engagement with stakeholders, in order to continually gather their feedback and inform them on issues and updates concerning the business, community, market trends and operational changes.

Boubyan welcomes any feedback or queries regarding the Group's ESG performance. Please contact us at:

# 1. About Boubyan Group

### 1.1 Profile

Boubyan Group is one of the leading entities in providing banking, investment, asset management, takaful insurance and digital solutions. This is done through its group entities, which include: Boubyan Bank, Boubyan Takaful, Boubyan National, Boubyan Capital, BLME and BB2 Tech Co. The Group's operations are mainly located in Kuwait, with BLME and BB2 Tech Co subsidiaries based in the United Kingdom (UK).

Boubyan Bank was first established in 2004 and is recognized as one of the leading banks in Kuwait for providing exclusive and unique banking services and products. The Bank has been ranked as one of the most advanced private sector institutions in Kuwait in the field of customer services and digital solutions, leveraging its services across 45 branches (including 6 dedicated for special needs). Boubyan Bank is considered the 3rd largest bank Kuwait in terms of market share, with total assets of KD 7 billion, which have grown by 14% compared to last year.

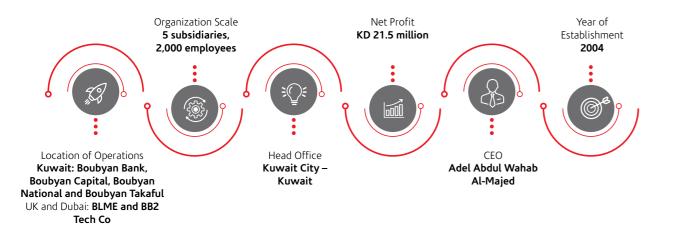

In particular, Boubyan Bank has laid the foundations for becoming a leading Sharia'a-compliant financial institution by setting the cornerstone for innovative and digital banking services, most of which were offered for the first time in the Kuwaiti market. The Bank has expanded its portfolio to cover a diverse range of services which go beyond banking, leveraged by the 5 subsidiaries. Expanding the scope of Boubyan's non-banking services has itself further positioned the Group's competitiveness in the market and brought greater emphasis to its role and impact in fulfilling the required environmental, social and governance aspects that are required to address.

Offering a combination of services under Sharia'a law and ethics cultivates an ideal correlation between banking and business. Understanding this, Boubyan offers dynamic and comprehensive knowledge in a financial environment conducive to the development of profit-friendly and risk-mitigating Islamic products – and acts as an advocate for establishing a cooperative responsible culture amongst other Islamic banks on regional and international scale. ### **1.2 Purpose**

Facilitating the incorporation of ESG across Boubyan shall subsequently strengthen the satisfaction of stakeholders and operational resilience. Mitigating environmental impacts, creating an inclusive workplace, conducting business ethically, respecting human rights, and empowering the future generation are some of the efforts (to name a few) that Boubyan exhibits as means of establishing a sustainable and equitable community.

Boubyan's purpose is to "Achieve excellence in creating value to the Environmental, Social and Governance (ESG) pillars, serving as a benchmark for other financial institutions that are Sharia'a complaint".

Being purpose-led means that Boubyan shall continuously impact each stakeholder, by exhibiting fair, accountable and responsible operations with the aim of delivering long-term sustainable performance and financial returns.

Embedding and holistically integrating such ESG purpose into Boubyan's operations will certainly be achieved over time, through establishing balanced decision-making and governance that factor in the impact ESG has on multiple stakeholder groups and operational levels.

Since sustainability at Boubyan is considered a gene and core value, moving forward with our ESG journey will take into consideration the measures that Boubyan shall adapt and expand over time for the achievement of environmental, societal and governance equilibrium outcomes. This year, we aim to set out Boubyan's ESG purpose through rigorous and transparent reporting of ESG metrics, addressing our response, actions, performance and aspirations to areas concerning climate change, customers, employees and governance.

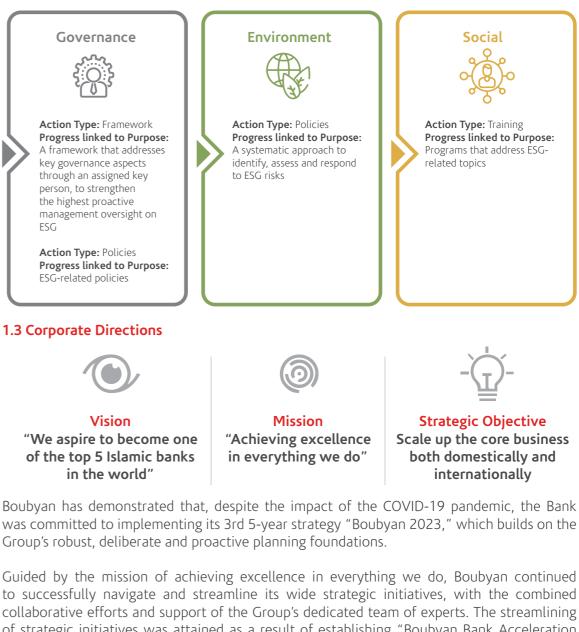

### A Purpose-Led Vision, ESG Driven

Achieve excellence in creating value in line with the Environmental, Social and Governance pillars – serving as a benchmark for other financial institutions who are Sharia'a complaint

E	S	G
Environment	Social	Governance
More details are provided in Chapter 5: Monitored Environmental Performance	More details are provided in Chapter 4: Created Social Economic Value	More details are provided in Chapter 3: Governance and Transparency

Boubyan's ESG purpose is aligned with the corporate strategy and the interests of our stakeholders. Additionally, having an established ESG purpose will in return support various international and national sustainability enablers, such as SDGs, New Kuwait Vision 2035 and Boursa Kuwait. All of this will eventually aid in positioning Kuwait's sustainable and economic status, regionally and internationally.

In 2020, Boubyan set out its aspirations and visionary approach towards a range of ESG areas. In this reporting year, Boubyan conducted a maturity assessment exercise to determine Boubyan Bank's current ESG non-financial performance against our aspirations. As a result, a series of recommended actions have been identified. Each of these have an assigned implementation timeline—being either quick wins (QW), short-term (ST), medium-term (MT), long-term (LT), or disclosure gaps (DGs). Boubyan has prioritized its ESG maturity results, covering its ESG aspirations.

Guided by the mission of achieving excellence in everything we do, Boubyan continued to successfully navigate and streamline its wide strategic initiatives, with the combined collaborative efforts and support of the Group's dedicated team of experts. The streamlining of strategic initiatives was attained as a result of establishing "Boubyan Bank Acceleration Program." The goal of the program is to adopt an offensive strategic approach, focused on prioritizing initiatives across a defined timeframe. Initiatives that had key strategic relevance and higher yielded impact and value creation were prioritized and facilitated to implement. Specifically, in 2021 Boubyan Bank effectively achieved several targets that are in line with "Boubyan 2023" strategy pillars, as illustrated in the following.

### **1.3 Corporate Directions**

Pillar (1) Capturing the Kuwaiti youth market through the continuous offering of digital and cost-conscious products	Pillar (2) Geographical diversification	Pillar (3) Value creation
Boubyan Bank continued its focus on capturing the Kuwaiti youth market through continuous improvements of its existing products and the introduction of new offerings and digital products, such as the launching of the Bank's PRIME segment, which is an exclusive account tailored solely for youth.	In the continued efforts of geographical diversification, Boubyan Bank and BLME focused on carrying out the transformation wealth management strategy, which was put in place after the Group's acquisition of BLME. With the aspirations of becoming a leading UK Islamic wealth management bank, BLME is considered a gateway to Gulf Cooperation Council (GCC) customers for delivering financial services to individuals and businesses, in conjunction with Boubyan's investment arm, namely Boubyan Capital subsidiary.	In 2021, Boubyan Bank successfully launched Nomo, the First Global Islamic Digital Bank, offering Sharia'a-compliant wealth management and banking services from the UK. Individuals across the GCC are offered the opportunity to diversify their portfolio, resulting in value creation, through accessing UK's fixed term deposit accounts and attractive profit rates.

Boubyan recognizes the importance of sustainability as it ensures its performance is aligned with national and international sustainability directions and guidelines. Therefore, Boubyan Bank integrates various ESG elements within its corporate strategy. From the social responsibility perspective (S), several social initiatives and events have been conducted, impacting the community. Additionally, Boubyan is committed to attracting and retaining a diverse selection of national talents and in empowering Small and Medium-Sized Enterprises (SMEs). Regarding the environment (E), Boubyan is committed to assessing and reporting on various environmental factors that are associated with the type of business that it operates, to determine and calculate any reduction. Those include greenhouse gases (GHG) emissions intensity, water and electricity consumption and waste management. Moreover, Boubyan strives to innovate and offer digital products that are considered cost-conscious services and, most importantly, environmentally sound. As for the governance (G) aspects, Boubyan exhibits responsible and ethical practices that are in compliance with regulators through establishing a sound governance mechanism guided by a set of policies and procedures – with zero tolerance of any financial ethics non-compliance and discriminative behavior.

The recognition and management of ESG issues allows Boubyan to deliver a business model that generates sustainable returns for shareholders and the community and attracts bestin-class employees. Therefore, the Strategic Planning team attends the Steering and Project Committee meetings throughout the year to monitor the progress of each of the Group's strategic initiatives, in terms of target achievement. The team issues quarterly progress reports to Boubyan's senior management as a means of ensuring their oversight over the Group's strategic initiatives.

About Boubyan Group

wards and Recognitior

Achieving a substantial growth in profitability requires understanding the value creation of the ESG components of nonfinancial performance. Boubyan continues to assess and identify key material sustainability issues that address stakeholder interests and in return affect and impact the overall business operations.

ہ بوبیان Boubyan

> This chapter represents the key identified ESG material topics for the reporting year 2021, including the response of both Boubyan's internal and external stakeholders to the topics, with the focus on prioritizing what matters most to them in order to achieve excellence along Boubyan's continued ESG journey.

2. ESG at Boubyan

Covered Sections: Materiality Assessment Engagement and Communication Detailed alignment of Boubyan's 2021 identified material topics is represented in Appendix 6.2 The topics are aligned to:

کویت جل یل NEWKUWAIT ESG at Boubyar

0

Appendices

### 2.1 Engagement and Communication

The active engagement with stakeholders is fundamental to reaching sustainable development and in demonstrating responsible business. Boubyan continues to respond and engage with its valued stakeholders through incorporating and communicating their opinions and concerns, as part of the Group's underlying ESG journey and reporting practices.

Boubyan engages with its various stakeholders regularly, to better understand their concerns and respond to their feedback in a timely, transparent and accountable manner. The following summarizes Boubyan's stakeholder groups and illustrates how the engagement is conducted, categorized by each stakeholder group's communication channel, and shows each group's priorities and main areas of interest in their interaction with Boubyan.

### 2.2 Materiality Assessment

In 2020, Boubyan adopted a systematic approach regarding identifying key sustainability material topics that have the most impact and interest on internal and external stakeholders. The materiality assessment approach is in line with the GRI principles and involves the identification, assessment and validation of key opinions and concerns expressed by Boubyan stakeholders.

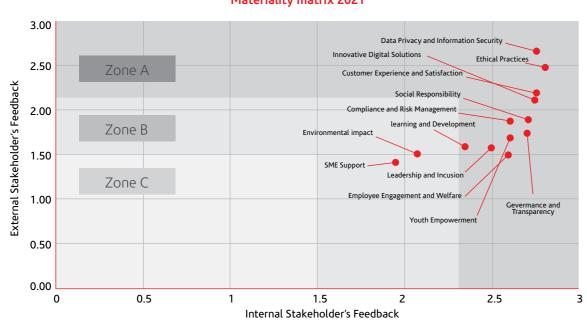

Similarly, in 2021 Boubyan built on its materiality assessment through considering external stakeholders' feedback on the most significant environmental, social and governance (ESG) related topics. This has been followed with the objective of enabling enhanced oversight on future trends and achieving better informed decisions as means of increasing Boubyan's transparency in disclosures and in return influencing how ESG topics are prioritized and managed.

A total of 13 material ESG topics were identified in 2021, rated by 15 internal stakeholders, comprising Boubyan's Management Executive Committee (MEC) – representing the x-axis of the materiality matrix. The y-axis represents Boubyan's external stakeholders' ratings, comprising a total of 64 customers from a diverse client pool in terms of gender, age and accounts. The difference between the external and internal stakeholders' feedback is that the external stakeholders' feedback represents the influence the material topic has on stakeholders, while the internal stakeholders' feedback represents the significance of the topics and its impacts on Boubyan's operations internally.

The findings of the materiality assessment were discussed and validated internally, and the outcomes of the ratings were plotted in a matrix. The topics ranked as most material in return shape the context of Boubyan's 2021 sustainability report. From the 13 identified and assessed topics, 2 were deemed to be of high importance to both internal and external stakeholders, namely Data Privacy and Information Security, and Ethical Practices. One topic was found to be of moderate interest to both stakeholders, which is Environmental Impact.

In comparison with the previous year, some topics remain key high material topics that concern Boubyan's internal stakeholders, these include - Innovative Digital Solutions, Leadership and Inclusion, Social Responsibility Employee Engagement and Welfare, Compliance and Risk Management, and Learning and Development.

The following illustrates Boubyan's materiality assessment results and the identified material ESG topics for the reporting year 2021.

### Materiality matrix 2021

ESG at Boubyan

# 3. Governance and Transparency

### **Covered Sections**:

Board and Higher Management Disclosures Compliance and Ethical Practices Boubyan is committed to reflecting sound corporate governance practices throughout its ESG journey. This is reflected within the accountable decision-making processes, perseverance of stakeholder rights, code of conduct compliance and intolerance to financial sanctions.

Sustaining Boubyan's partnership, engagements and stakeholders' confidence is further strengthened through the alignment of responsible operations, reflected as means of protecting our stakeholders against risks and uncertainties.

This chapter represents how Boubyan manages its corporate governance related aspects in terms of sustaining the appropriate levels of Board oversight on ESG concerns, management of risks, effectiveness of financial ethics incident controls, and disclosures related to the Board's and executive management performance.

itored Environmer Performance

### 3.1 Board and Higher Management Disclosures

The Board of Directors (BoD) is the principal decision-making body for Boubyan, responsible for overseeing our robust governance practices, the adherence to respective regulations and conducts and supervising how operations are managed adequately.

Boubyan's BoD comprises of diverse professional expertise who guide the Group's strategic decision-making process, acting as enablers of establishing long-term value creation, maintaining resilient market positioning, and upholding the highest standards of ethics, integrity, accountability and equity.

Boubyan strives to ensure that demographical aspects are reflected within its BoD in terms of having a wide variety of expertise, gender representation and other diversity-related factors such as ethnicity, age, religion, etc.

Currently, Boubyan has only 1 female on its Board, specifically in BLME, as guided by its Board Diversity Policy. However, Boubyan believes in the impactful and influential role that women representation in leadership positions has on the pursuit of robust governance practices, and aims to further expand representation within its Board. The following illustrates Boubyan's Board of Directors per each subsidiary.

28 Boubyan Group | Sustainability Report | 2021

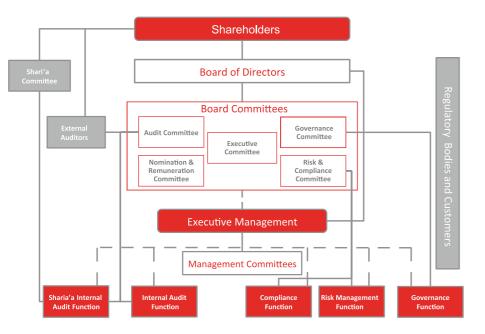

### Chief Risk Officer – Risk Management Group

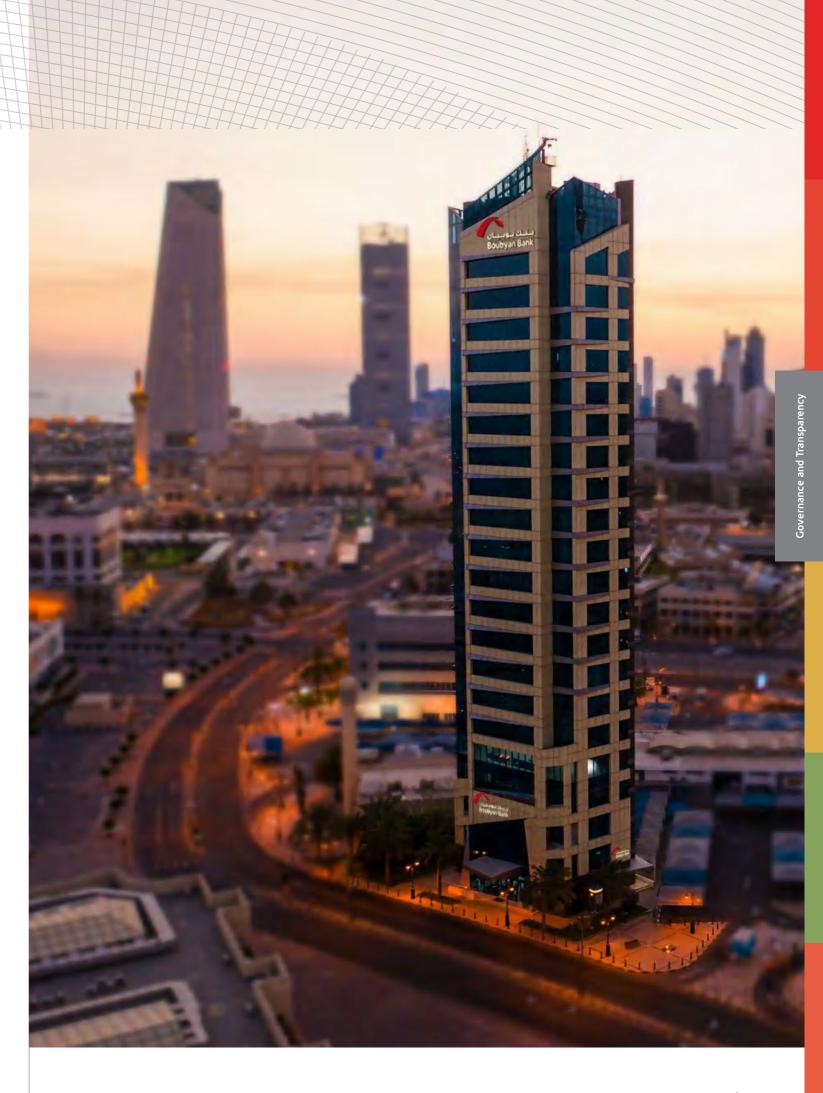

The Board assumes the full responsibility for Boubyan's activities and that include setting its strategic goals, risk strategy, and corporate governance standards, and the responsibility for implementing these goals and standards, as well as overseeing their proper implementation and supervising the executive management. The role of the Board is therefore not only limited to the concept of profitability and limits for financial transactions, but it further expands to ensuring that each member has oversight of ESG-related concerns and that sufficient attention is paid to the impact of its ESG practices on its various stakeholders.

Boubyan's Board charter defines the Board members' roles and responsibilities, the required qualifications of its members, the Board's formation, the role of the Chairman and of the Vice-Chairman, the duties of the Board Secretary and the organization of the Board's responsibilities.

The Board, operates and oversees several committees, comprising executive and nonexecutive members as per Boubyan's corporate governance requirements. The Chairperson of each committee is required to submit quarterly reports to the Board on its respective activities. Each committee operates as per its approved charter by the Board. The following illustrates Boubyan Bank's corporate governance structure and its respective Board committees.

### Boubyan Bank Corporate Governance Structure

### Boubyan Board Committees

Revising the structure of the Risk Management Department and the tasks thereof in order to be approved by the Board of Directors. Coping with the fast and complicated developments of risk management within the Bank in addition to submitting periodic reports to the Board on these developments. Ensuring that the Head of the Risk Management Department and the Head of Compliance submit their reports directly to the Chairman of the Risk Management Committee on a regular basis	Chairman: Mr. Waleed Al Ayadhi	Independent

### **BLME Board Committees**

The Audit Committee is chaired by Calum Thomson (FCA) and comprises Joanne Hindle and Abdullah Al Tuwaijri.

The Committee's main responsibility is to review any reports from management, the internal auditor, and the external auditor regarding the internal control systems implemented throughout the Group, along with consideration of the Annual Report and Financial Statements. It also makes recommendations to the Board on the appointment of the auditors and the audit fee.

The Board considers that the members of the Audit Committee possess recent and relevant financial experience. The Audit Committee has unrestricted access to the Group's auditor's (external auditor EY & internal auditor BDO).

The Audit Committee is responsible for reviewing and monitoring the external auditor's independence and objectivity and the effectiveness of the audit process. The process through which the Committee assesses the auditor's independence and objectivity each year includes the following:

- a review of non-audit services provided to the Group and related fees
- discussion with the auditors of any relationships with the Group and any other parties that could affect independence or the perception of independence
- a review of the auditor's own procedures for ensuring the independence of the audit firm and partners and staff involved in the audit, including the regular rotation of the audit partner
- obtaining written confirmation from the auditors that, in their professional judgement, they are independent

### **Board Risk Committee**

The Board Risk Committee (BRC) is chaired by David Williams and comprises Bader Abdullah Al Kandari, Joanne Hindle, Calum Thomson and Maged Fanous.

BRC is responsible for the oversight of the risk profile of the Group and for providing guidance, advice and recommendations to the Board on credit, market, liquidity and operational risks with a view to re-enforcing a culture that encourages good stewardship of risk. Within this mandate it reviews risk levels in consideration of the Group's overall risk appetite, market conditions and business strategy. It also reviews the Group's Internal Capital Adequacy Assessment Process (ICAAP), Individual Liquidity Adequacy Assessment Process (ILAAP) and Recovery and Resolution Planning Process (RRP) and assesses the adequacy of stress testing and risk policies.

Ultimate responsibility for risk rests with the Board which, with advice and recommendations from BRC, approves the risk appetite for each major class of risk in line with the Group's business model and strategic priorities and also approves the annual ICAAP and ILAAP.

The management of risk is delegated to the Chief Executive Officer who in turn delegates the day-to-day management of risk to the Executive Committee and, in particular, to the Executive Risk Committee which oversees the two sub-committees of the Group responsible for risk oversight (being ALCO and CCRC). The day-to-day independent oversight of risk is performed by the Group's risk department. This process is supported by the regulatory reporting team's internal control role in monitoring adherence to risk limits, management action triggers and regulatory limits.

### Board Nominations and Remuneration Committee

The Nominations and Remuneration Committee is chaired by Joanne Hindle and comprises David Williams, Calum Thomson, Abdul-Salam Mohammed Al Saleh and Abdullah Al Tuwaijri. The Nominations and Remuneration Committee is responsible for matters relating to the composition of the Board, including the appointment of new Directors, and making recommendations to the Board as appropriate. The Committee is also responsible for overseeing the annual performance evaluation of the Board, its principal Committees and the Chairman. The Nominations and Remuneration Committee identifies qualified candidates to be Directors, through a robust and prudent process, with the use of external consultants as necessary.

The Nominations and Remuneration Committee ensures that employees, management and executive compensation is appropriately aligned to business and individual performance and is consistent with Shareholder interests and is in compliance with the FCA's Remuneration Code. It performs these duties within a framework that takes account of prevailing market conditions, best market practice and regulatory compensation guidelines. The Remuneration Committee has appointed Deloitte LLP as a professional advisor. Deloitte LLP is independent and has no connection with the Group.

The size of Boubyan Board is determined as per the governance requirements issued by the Central Bank of Kuwait (CBK), which state that there is no specific period in relation to the maximum number of years executive and non-executive Board members can be on Boubyan's Board. There is a maximum period, however, for independent members, which is not exceeding 2 consecutive sessions on the Board, in accordance with governance instructions issued by CBK. As such, Boubyan currently does not have a policy that governs its Board tenure. The Board Nominations and Remuneration Committee at BLME, on the other hand, reviews the tenure of its Board members to ensure that appropriate succession planning is in place so that independent Directors do not exceed a 9-year term. Whilst BLME is not subject to the UK Corporate Governance Code, it is cognizant of the "comply or explain" principles of the Code regarding a 9-year term and operating within the principles of the Code.

The criteria that Boubyan follows regarding nominating and selecting the highest governance bodies is conducted in accordance with the governance requirements of CBK, in which the nomination is open for both genders with equal opportunity and requirement.

Regarding the evaluation of Boubyan's Board of Directors (BoD) performance, this is conducted annually where the members of the BoD evaluate one another, and the members of the BoD as a whole are evaluated. The performance evaluation process is assessed by a spider gap system, in which the results are presented to the BNRC and BoD. As for BLME's BoD performance evaluation, once every 3 years BLME uses external consultants to independently evaluate its Board performance. In between, BLME conducts annual self-evaluations of its Board Committee via a combination of surveys or desk-based analysis on the annual work agenda achieved against each Committee's responsibilities (as defined in their respective Terms of Reference).

As a way of sustaining Boubyan's accountability and transparency with its stakeholders, the following gives more details on Boubyan's Board related and corporate governance disclosures and performance for 2021.

### The following provides more details on Boubyan's Board oversight on ESG-related concerns.

Boubyan Board ESG Oversight	Description
Health and safety issues	Identify any related safety issues facing Boubyan operations or the community as result of its practices and mitigate it with proper delegation authority and the concern departments. For BLME, the Board Nominations and Remuneration Committee oversees staff wellbeing matters, especially in the context of the COVID-19 pandemic and also concerning mental health issues. The CEO has overall day-to-day responsibility for oversight of health and safety concerns, any discussions at Board level would arise as a consequence of the CEO appraising the Board of any matters of significance in his regular quarterly update report (if relevant). In addition, the Director of People and Corporate Communications appraises the Board Nominations and Remuneration Committee of staff wellbeing matters on a regular basis. BLME engaged external Health and Safety advice to assist our management concerning its responsibilities pertaining the topic.
Tax transparencyespecially concerning jurisdictions outside of Kuwait (i.e. the UK) and on Foreign Account Tax Compliance Act (FATCA)	Periodically management reports are submitted to the Board and are presented to the Audit Committee as well. For BLME, Board oversight of tax matters is discussed at the Board Audit Committee. BLME has adopted the HMRC Code of Practice on Taxation for Banks. BLME is committed to acting with integrity and transparency in all tax matters.
Cybersecurity	Maintained through information security related policies and procedures and periodically management reports are submitted to the Board
Digital Integration	Monthly Committee meetings led by Boubyan Retail CEO to present IT/Digital initiatives progress and discuss key concerns. Weekly meetings "Scrum of Scrums" to raise, escalate and solve all pending issues.
Environmental issues (i.e. climate change)	For BLME, the Board oversight of environmental issues such as climate change is discussed at the Board Risk Committee (BRC). BLME will set out how the Prudential Regulation Authority's (PRA) new Climate Change requirements and responsibilities are being embedded into the Bank – where it has appointed an Executive Committee member to have regulatory responsibility to ensure the Bank fully complies with its regulatory requirements.
Financial ethics non- compliance (i.e. AML /fraud / corruption/bribery)	Board oversight of financial ethics matters is delegated to the Board Audit Committee who receive a quarterly update report from the Money Laundering Reporting Officer that is discussed at every scheduled quarterly meeting. The Audit Committee Chairman then briefs the Board on any matters of significance at the scheduled quarterly Board meeting.

Boubyan's executive management ensures that Boubyan's activities are aligned with overall strategy, risk appetite and the policies approved by the Board. Each executive manager is responsible for the operations and activities of their managed department, without any interruptions, whereas progress operational reports are sent to upper management. As of 2021, Boubyan has a total of 52 females in managerial positions, representing a 17.63% out of total managerial level personnel – which reflects Boubyan's commitment towards enhancing its gender representation throughout its ESG journey.

More details on Boubyan's executive management are illustrated in the following per subsidiary.

### **BLME Executive Management**

Andrew has 30 years' experience in Financial Services, specialising in Private and Retail Banking services. In 2020 Andrew stepped into the role of CEO, having worked at BLME as Head of Wealth Management and Head of Business since 2015. Before joining, he was Head of Strategy and Head of Retail Banking at International Bank of Qatar (IBQ). He began his career with Lloyds Bank in 1989, working onshore in the branch network as well as in the Offshore Banking Group in the Channel Islands before moving to Citibank International PLC where he held several roles including Head of Sales and Distribution. In 2004 Andrew joined National Bank of Kuwait as Head of Affluent Sales, after which he worked at Al Khaliji where he held several senior positions including Group Head of Consumer Banking and Head of Premium and Business Banking.

Chris Power Chief Financial Officer

Chris has 35 years' experience in Financial Services, specialising in Financial Control, Operations, Internal Audit and Risk. In January 2020 Chris was promoted to Chief Finance Officer and Chief Operating Officer having worked at BLME since September 2015. Before joining BLME in 2015, Chris was Group Finance Director of the Board of CLS Group Holdings AG ("CLS"). He began his career with Deloitte in London before moving to Hong Kong and heading up the Hong Kong Banking and Securities Group. Chris joined the ABN AMRO Banking Group in 1994, where he held various senior positions whilst working in Hong Kong, Thailand and Brazil. He then headed up the control function for South America and joined ABN AMRO's Top Executive Group as a Corporate Executive Vice President, prior to joining CLS in 2008 as Chief Financial Officer and then being promoted to the main Board.

### Gareth Howells Chief Risk and Compliance Officer

Gareth has 30 years' experience in Financial Services, having held senior roles across Risk and Compliance. Prior to joining BLME in January 2020, Gareth held the Chief Risk Officer role with Qatar Islamic Bank and was Executive Director on the Bank's Board for4 years. During his 12 years with Royal Bank of Scotland, he held various senior Risk roles, including COO, Head of Risk Transformation, Head of Credit Policy and Senior Credit Management within the Corporate & Institutional Banking, Investment Banking and Distressed Debt Divisions. Gareth began his career with various appointments in Barclays Bank, then Close Brothers Merchant Bank.

### **BLME Executive Management**

Tracey Carlton Director, Human Resources and Corporate Communications

Tracey is an HR specialist with a passion for people and for achieving business results through an engaged workforce. Tracey also leads our corporate communications, ensuring internal and external audiences are kept updated on the Bank's work. Tracey previously worked in Indonesia, Malaysia, and the United Arab Emirates where she focused her career on a broad range of human resource functions in the education, hotel, and aviation industries. After 13 years in Dubai with Emirates Airline, Tracey relocated to London in 2012. After taking time off following the birth of her daughter, she moved into the Financial Services industry and enjoyed HR roles at both Capital Group (Asset Management) and Lazard (M & A Advisory) before joining BLME as the Head of HR.

Mark Lynch Head of Treasury

With 30 years' experience in Financial Services, Mark joined BLME in 2007 as an Assistant Director, before being appointed as a Director and Head of Treasury a year later. Mark began his career in banking at The Royal Bank of Scotland, working in Treasury Support Services. He joined Banque Internationale A Luxembourg (BIL) in 1989, starting as a trainee dealer, working his way up through the Treasury team. He also played a key role in the transformation of BIL to Dexia Bank London when Dexia acquired BIL in 1999, reaching the position of Assistant Director.

Mona Mohtasseb Group Head of Wealth Management

Mona brings 25 years' experience in Financial Services, having held roles across trading and private banking. As Head of Wealth Management at BLME, Mona is responsible for investments and sales across the Middle East, establishing the bank's investment platform. She was born and brought up in Kuwait and is fluent in Arabic, English and French. Before joining BLME in 2021, Mona was Executive Director at the Bank of Singapore. Prior to that, she was a Director and Senior Private Banker, MENA Region, at Barclays Wealth Management for 11 years. She was also Citigroup's Team Head for Kuwait in London and Senior Vice President, Investments at Prudential Bache Securities in Paris and London.

Andrew Thomson Head of Real Estate

Andy has 25 years' experience in real estate finance having worked in investment banking, corporate banking, real estate advisory and challenger bank businesses. Prior to joining BLME in 2021, Andy was Head of Real Estate Finance at Secure Trust Bank plc. He began his career with Bank of Scotland in 1990, where he worked in roles within Corporate Banking, Treasury and Real Estate Joint Ventures and then worked in RBS focussing on high value complex real estate transactions. Andy also worked with Pepper Financial Services within Commercial Loan Servicing and headed Avison Young's Debt Advisory business, which included debt broking and providing real estate advice to public and private sector organisations.

Simon is the new Chief Operating Officer at BLME. With three decades of C-level experience in banking and financial services, Simon's previous positions include Regional Chief Operating Officer (Europe & Americas) at First Abu Dhabi Bank UK and Chief Financial Officer at International Bank of Qatar. Simon returns to BLME to spearhead our outsourcing & procurement functions, day-to-day operations, IT infrastructure, and facilities management.

Simon Gibbons Chief Operating Officer

Sean Gilchrist CEO Nomo

Sean joined BLME in August 2021 as CEO of Nomo. He brings with him 30 years' experience in Financial Services, 20 years of which have been in the digital space, servicing retail and commercial customers. Before joining BLME in 2021, Sean was Chief Digital Officer of the Co-operative bank leading their transformation to become the "digital ethical bank." He has led and grown digital services at Lloyds and Barclays Bank, transforming digital services across their respective retail, wealth, and corporate banking sectors. Sean also worked with the Foreign, Commonwealth and Development Office helping them drive their digital transformation.

### **3.2 Compliance and Ethical Practices**

Operating ethically and in compliance with standards and procedures is a responsibility that every employee and internal stakeholder should uphold. It is part of Boubyan's obligation as a Sharia'a-compliant organization to serve its customers and all its stakeholders according to the principles of fairness, integrity and ethical conduct across all its jurisdictions.

All Boubyan employees shall undertake their responsibilities in a manner that serves the interest of the Group and its stakeholders and that are in line with ethical conduct in terms of activities and services. Boubyan's operations are guided by the Code of Conduct, outlining its standards, principles and work behavior that its employees and third parties are held responsible to. There is also a separate Code of Conduct for Boubyan's Board of Directors. All employees must acknowledge the Code of Conduct upon signing their contract, whether it was a written or digital acknowledgement form, stating that 21.13% (377 employees) out of total employees have been trained on Boubyan's Code of Conduct, while 16.45% from Boubyan Capital and National subsidiaries have attended the training as well. The BoD's Code of Conduct governs the duties of the members of the Board and the executive management, stating that all resolutions of the Board shall treat all shareholders in a fair and equal manner. It covers confidentiality of stakeholders' information, conflict of interests, independence of members, and various other issues. Boubyan's Code of Conduct review cycle is conducted every 3 years, and the last review was conducted in 2021.

Boubyan policies are subject to Kuwait laws in conformity with the Sharia'a principles and the regulatory requirements of CBK and CMA, and any activities outside Kuwait are bound to the laws and regulations of those countries. The latter is applicable to BLME and BB2 Tech Co, as they follow the UK Employment Law. For their operations in UAE, it would be DIFC UAE employment legislation. Boubyan operates in line with the policies and requirements of, among others, the:

- Islamic Financial Services Board (IFSB)
- Basel III
- International Financial Reporting Standards (IFRS)
- International Organization for Standardization

Boubyan's Continuous Improvement Department (CID) govern the review cycle of policies, procedures, authority matrices and other related documents that ensure compliance with CBK and other regulations. Policies and procedures owners are notified (via Tawasol App) when the review date is due and what necessary authorities' approvals are needed to ensure compliance. The policies and procedures are then submitted to the BRCC for their final review and approval.

All policies are reviewed at least every 3 years and all procedures are reviewed at least annually, to guarantee their effectiveness and that they are up to date with any changes to work processes. Boubyan employees have access to the said policies and procedures through the Intranet or via Tawasol App, and all labor-related policies and standards are communicated transparently with Boubyan employees in both English and Arabic, as they are the commonly used languages for employee engagement and communications.

The following illustrates selected available policies that govern Boubyan's operations and decision-making, and that safeguard ethical practices within Boubyan's operational transactions

Addressing financial ethics is one of the areas that Boubyan tracks and tackles as part of ensuring the conduct of ethical practices. Boubyan does not tolerate any sanctions of financial ethics non-compliance, or any financial legislations that may have risks of money laundering (AML), bribery, corruption, fraud, tax evasion or Counter Terrorism Financing (CFT).

Boubyan acknowledges the risks that may arise with respect to personal, stakeholder and regulatory reputation in the event it fails to adequately design, develop and implement appropriate training, processes and procedures that prevent the facilitation of any financial ethics non-compliance act. Therefore, Boubyan has a statutory obligation towards the detection, prevention, control and mitigation of such acts if they occur. As such, Boubyan has an established set of policies and procedures in place for all the Group's subsidiaries within its scope, new and existing clients and business operations. Additionally, all employees are aware of said policies and procedures in terms of their roles and responsibilities, of the documentation of such cases (if they occur), and of all related regulatory requirements and updates.

Boubyan's AML/CFT program further emphasizes the due diligence and screening of customers against applicable financial sanctions target lists, that cover both international and local lists. A Know Your Client (KYC) assessment is conducted to carry out daily automatic checking and regular monitoring against the up-to-date international "sanctions list" and internal lists, as published by World-Check and the Watch List as per UN, OFAC, EU, BOE, INTERPOL, SECO.

In addition to the aforementioned checks, independent audits are continuously conducted, along with the assessment of Boubyan's controls and procedures, covering all Boubyan's relevant stakeholders and operations across all its jurisdictions. Periodic training on AML / CFT policies and procedures is carried out each year (or when deemed necessary) to all Boubyan employees, including new employees. This is to ensure that they are fully aware of their responsibility regarding detecting and reporting any incidents related to financial ethics non-compliance, thereby reducing adverse commercial effects on brand reputation and stakeholders. The latest review of Boubyan's AML-related policies was conducted in 2021.

The following summarizes Boubyan's approach towards AML incidents avoidance.

If a financial ethics non-compliance incident has been detected, all cases that are considered suspicious by the AML officer are raised to the AML Manager / AML Deputy Head. Accordingly, they will review the identified cases and if a suspicious act is confirmed the matter will be raised with the Head of AML for review and approval. Subsequently it is then sent to the insider AML Committee within Boubyan. The AML Committee will meet and accordingly approve or reject sending the case to KFIU, as per the analysis and summary report sent to them. The same is shared with Boubyan's Board, and they are provided with a report covering AML activities and suspicious cases. In 2021 a total of 26 suspicious cases were reported, but Boubyan did not pay any AML-related financial settlements or fines.

Since Boubyan has operational jurisdictions that fall under tax provisions, BLME is committed to acting with integrity and transparency in all its tax-related matters. BLME has a tax strategy and policies established that address BLME's compliance with UK's tax law and to ensure timely and accurate tax returns that reflect BLME's fiscal obligations to governments. BLME does not tolerate or promote tax avoidance or aggressive tax planning to customers or other third parties. In addition, BLME does not offer or promote any beneficial tax products. As part of BLME's ethical practices towards tax compliance, continuous risks monitoring and assessment are conducted to help avoid any tax risks and non-compliance related concerns. The latter includes failing to complete returns in a timely manner, failing to produce accurate computations in areas such as transfer pricing and VAT, and lastly failing to correctly interpret changing tax laws.

An important part of BLME's ethical tax practices is that through its professional advisors, they have a strong working relationship with Her Majesty's Revenue and Customs (HMRC). In this regard, BLME and its professional advisors proactively work with HMRC to determine the amount of tax due. Any inadvertent errors in submissions made to HMRC are fully disclosed as soon as reasonably practicable after they are identified.

Safeguarding customer rights and financial protection and awareness is considered an integral part of Boubyan's ethical practices and compliance. During 2021, in partnership with Kuwait Banking Association (KBA) and CBK, Boubyan ran multiple campaigns regarding online financial transactions risks. Boubyan utilizes its social media channels to raise its customers' financial literacy and awareness of its products and services in terms of ethical conduct transactions, specifically regarding electronic and non-electronic channels and on areas related to cybersecurity and information confidentiality. The purpose of the campaigns was to leverage CBK's "Let's be Aware" Campaign, which addresses several related topics such as the rights of people with special needs in the financial sector, security and cyber advice, and mechanisms for submitting complaints and customer rights.

Boubyan has adopted a comprehensive approach towards its information security and data privacy that is governed by a set of policies and procedures. This includes annual offered training to Boubyan employees on topics related to data privacy, the publishing of Boubyan's privacy notice on the website, and conducting PII encryption initiatives in which the classification is set and shared with all data owners and stewards. In addition, several initiatives were implemented in 2021, in terms of improving information security for both internal and external stakeholders. These are as follows:

- Delink users' app for those who do not sign-in within 100 days
- Lock user accounts for those who do not sign-in within 180 days
- Adding more audit data for specific services / products
- Technical changes to enhance the security such as the library upgrade for audit logs
- Ensuring that any sensitive information that is typed or sent in Msa3ed is always masked and encrypted in all layers and never stored in database or log files
- Started auditing customer device information, network details, IP for every call to Msa3ed

Please note that Boubyan's website collects anonymous data for analytical purposes, therefore the percentage of users whose customer data used as secondary data analysis purpose cannot be determined.

### 3.3 Risk Management

Boubyan acknowledges that to reach excellence within its ESG journey, a proactive approach towards identifying, assessing, controlling and mitigating risks should be in place. Accomplishing an effective risk management starts by having an established risk strategy and framework. Boubyan's risk strategy is based on positioning the risk management function as a partner to business to maximize Boubyan's stakeholder value and its risk-adjusted returns. It focuses on the continuous improvement of the risk identification and management framework and ensures that such sustainable enhancement is embedded in the risk infrastructure, controls, and enablers as well.

Boubyan has maintained a robust risk operational culture throughout its ESG journey, in which more than 40 available risk management policies and procedures have been developed. Such policies address Boubyan's risk management and liability exposure that may arise from day-today business operations and are established to govern a sound and resilient operations against risk appetite thresholds. The policies are regularly reviewed on an annual basis (or as deemed necessary) and are approved and overseen by the Board Risk and Compliance Committee (BRCC) and the Board of Directors.

Boubyan's risk appetite is based on a forward-looking framework that covers the main pillars of risks facing the Group, ranging from capital and credit risks to operational vulnerabilities. Depending on the nature of the risk involved, Boubyan's periodic risk monitoring could range from daily to monthly and for certain quickly evolving risks may be on a 24/7 basis.

Ensuring proper controls and processes are available, along with any collateral, guarantees or insurance that further cover any risks, is part of Boubyan's continuous risk mitigation process - that is conducted in terms of pre-fact and post-fact monitoring. In addition, the assessment of risk and opportunity is an inherent part of the budget and project planning processes at Boubyan. Specifically, the Risk Management Department acts as the 2nd line of defense to provide effective support to the 1st line Business Functions that ultimately own and manage the risks.

When it comes to scenario planning, stress testing and reverse stress testing, Boubyan takes a proactive approach that is beyond this being a regulatory requirement. Such tools are utilized as critical input for managing Boubyan's balance sheet and capital positioning. Stress testing is also conducted as part of identifying pockets of growing risks that have the ability to exponentially grow in crises and cause business disruptions and stress. Boubyan's scenario planning and stress testing are conducted minimally twice a year for regulatory purposes and more frequently within the year, as the business need arises.

Boubyan's risk controls focus more on the preventive side to minimize the occurrences of losses and disruption within Boubyan and across its various risk exposures. A live monitoring of treasury activities has been implemented, as well as a dynamic asset liability management based on projected figures, as part of Boubyan's risk controls to prevent any adverse event. Furthermore, several platforms are utilized by Boubyan as means of capturing risk management related data and conducting risk analytics, as part of the risk management control approach.

As part of Boubyan's governance structure, the Board Risk and Compliance Committee (BRCC), has oversight of Boubyan's risk management concerns. The Chairman through his role in the BoD and his direct contact and follow-up with BRCC conducts his oversight as per the received periodic risk management reports and meeting discussions. All BRCC members have an effective role in Boubyan's risk management, that is line with the scope of their responsibilities, whereas 2 members of the BRCC have significant financial and banking expertise. The BRCC roles and responsibilities, can be summarized as:

- Approving authority for the risk strategy and other information concerning security and cybersecurity initiatives
- Ensuring that customers' trust and loyalty is maintained
- Boubyan's culture promotes Information and cybersecurity related sound practices

The Business Continuity Management (BCM) Committee Charter defines the purpose of, and the authority and responsibility for the implementation, maintenance, review and sustainability of Boubyan's business continuity program. The Vice Chairman and CEO sponsor the BCM Program. In order to align the BCM Program with the existing governance programs at Boubyan, the BCM Committee reports to the Management Executive Committee (MEC), and the charter and other BCM documents are approved by a Board committee. The BCM team functions as 2nd line of defense for Boubyan in terms of its business continuity as the Business Continuity Plan (BCP) is developed in partnership with Boubyan's departments that ultimately own the risks. In addition, Boubyan has risk champions identified for each department to help develop, communicate and implement any risk management related plans.

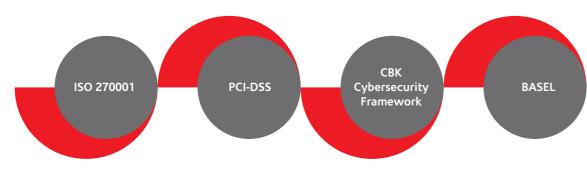

Environmental, Social and Governance (ESG) risks are defined as those that may be associated with Boubyan, a client, a transaction, a product, a supplier or an activity and that have a negative impact on Boubyan's financial position, operations and regulatory compliance. ESG risks and issues may include (but are not limited to) labor rights violations, waste management, climate change, suppliers' code of conduct, and various others. Boubyan currently incorporates certain ESG-related risks as part of its risk management approach; however, it aims to further integrate additional social and environmental related risks within

its risk management framework. Regarding social risks associated with suppliers, Boubyan has a close collaboration between risk management team, business units and the Administration Department to ensure that new suppliers' risk is identified, assessed and reviewed, as a part of any new supplier on-boarding. Accordingly, the Administration Department then manages the vendor selection and contracting process. Based on CBK requirements, the risk management team also conducts a risk assessment that can be included as part of any approval requests that need to be submitted to CBK (if needed). Based on the supplier's risk threshold, the risk management team conducts periodic reviews for its existing suppliers. In 2020, a Vendor Risk Management Framework (VRMF) was established and approved to cover Boubyan's new and existing vendors and services suppliers, specifically in areas related to cybersecurity aspects, business continuity and regulatory requirements. The VRMF considers governance aspects as well including policies, process, procedures and compliance and social responsibility aspects, in terms of awareness, staff training and customers data protection.

As for governance-related risks, as part of Boubyan's 2nd and 3rd line functions of defense they are responsible for ensuring the segregation of duties and responsibilities of the Board and its committees is in place and that they have oversight on risk reporting and that actions are taken in timely manner. Another area related to governance risks is relevant in certain cases of fraud investigations, in which the risk management team collaborates with other business units –internal audit and HR – to ensure that any financial ethics related risks are identified, assessed, controlled and mitigated.

Integrating environmental risks within Boubyan's risk management framework to factors related to climate change, for example, has still not been implemented. Nonetheless, Boubyan understands the importance of adopting such practice and is considering possible opportunities to integrate such environmental risks within its framework.

Consequently, as means of creating maximum value for Boubyan stakeholders and sustaining resilient operations against various potential risks, Boubyan's risk management employees and teammates are required to undergo various extensive training courses. These are designed to increase their level of awareness of risk-related topics and frameworks, related to their role and function.

### Boubyan's 3 Lines of Defense Model for Effective Management of Risks and Controls

First line of defense – Boubyan IT and Business functions that own and manage risks daily Second line of defense – Boubyan Risk Management function that oversees and monitors risks Third line of defense – Boubyan Internal Audit function for independent assurance

### Boubyan Risk Management Standards and Frameworks Technology Risk

Boubyan has a Technology Risk Strategy that is built around and aligned with Boubyan's vision, mission and objectives of being customer focused, technology driven, agile and innovative. It is directed towards deploying more advanced technology and online systems, including internet banking systems, mobile banking, payment systems, online trading platforms and portals – designed to reach and engage with the highest number of customers.

In this regard, Boubyan fully understands the magnitude and intensification of technology risks from developing and operating digital and technology-enabled business services. Therefore, it is necessary to establish adequate measures and robust operating processes to manage any technology-related risks – in line with Boubyan risk appetite, risk tolerance, regulatory and compliance requirements.

As such, Boubyan's technology risk management strategy covers the review of operational and manual business processes and their improvements, in terms of digitization initiatives. These initiatives encompass (but are not limited to) Robotic Process Automation (RPA), Robotic Desktop Automation (RDA), NFC, cardless payments, contactless and wearable payment, mobile banking and online banking. Boubyan's technology risk assessment scope includes customer experience and special needs customers, especially when it comes to publishing new online services or launching new mobile applications and platforms.

The technology risk management model includes 6 main pillars, shown below, that act as drivers for Boubyan's technology risk management practices:

### • Pillar (1): Risk management governance based on 3 I

- Pillar (2): Policies, processes and principles inherited
- Pillar (3): Oversight, board reporting and governance
- Pillar (4): Technology risk management strategy in li
- Pillar (5): Risk-aware culture including technology ris
- Pillar (6): Defined roles and responsibilities of techr

Our Technology Risk Management process is a continuous cycle designed to minimize the negative impact on technology which would eventually impact the business objectives. It encompasses a systematic process of identifying, analyzing and responding to risks that is broken down into a number of sub-processes that are iterative and repeated in nature. The sub-processes include the identification, analysis, evaluation and mitigation of technology risks. Determining the acceptable level of technology risks is as per the approved risk appetite and tolerance level that are determined in the business planning phases. Boubyan's policies clearly identify the required compliance requirements and ensure that they are enforced regarding technology-related risks and regulatory compliance aspects. All technology-related policies and frameworks are reviewed on an annual basis.

ne with Boubyan's vision, mission and objectives
k appetite and risk tolerance
ology risk stakeholders

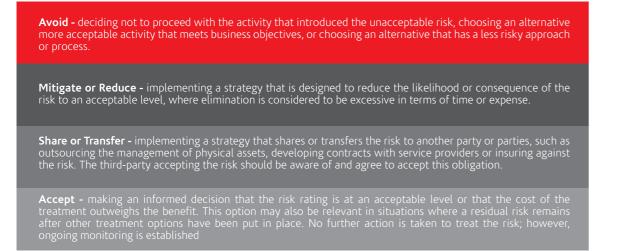

In terms of the oversight of Boubyan's higher management on technology-related risks, the Board of Directors (BoD) has the ultimate accountability for the overall risk management and controls. The BoD delegates part of their responsibility to the BRCC to assist them in overseeing risk management and compliance-related concerns. So, the BRCC has derived authority from Boubyan's BoD to oversee the Risk Management Strategy, risk management policies review, the overall risk tolerance level and risk acceptance criteria for board approval – and ensure that risk-aware decisions are made.

The Management Executive Committee (MEC), chaired by Boubyan's CEO, has the responsibility of ensuring that all the business groups, supporting functions, and control functions are operating in line with the business plan and strategy set by the Board and that they have a clear understanding of the risks involved in their functional areas. Moreover, the MEC is responsible for ensuring that all Boubyan's business functions are in compliance with the respective policies, procedures and regulations.

The Information Security and Technology Risk Steering Committee (IS/TR-SC) oversees Boubyan's information security management and is consulted over any key technology risks and associated exposures. The Committee is responsible for the oversight of technologyrelated risks mitigation plans and the proposed timelines by risk owners, as well as providing necessary risk-related recommendations to the MEC and BRCC, when required.

Technology risk assessment is performed by first identifying the risks associated with Boubyan's key services and products that rely on technology. It involves determining the risk factors that may arise through scenario planning different threat types, resources and time dimensions as applicable. Once the set of risks and related scenarios are defined, they are then used for risk analysis, where the frequency and impact of the scenario are assessed. The outcomes of the analysis are then categorized into either positive or negative impacts. The frequency of monitoring Boubyan's technology risks is conducted on a monthly basis, in the form of risk profile reporting and risk appetite monitoring. The periodic reports are sent to the risk management General Manager, Chief Risk Officer (CRO) and the BRCC, and other senior managers across Boubyan may also receive the report depending on the CRO advice and recommendations.

Depending on the type and nature of the risk, the following mitigation options are then implemented:

Concerning Boubyan's adopted risk controls, the technology risk management process assists risk owners in implementing adequate controls and measures, to reduce the likelihood and impact of technology-related risk. The technology risk controls include (but are not limited to) the following:

Preventive controls - through enforcement of separation of duties, authorization, the establishment of governing policies, process and procedures, and through data classification, data encryption, firewalls, Virtual I AN and others

**Detective controls -** include event log monitoring, CCTV and surveillance logs, review of access rights, audit logs, and unauthorized changes, network intrusion detection, antivirus and others

**Corrective controls -** include all the measures taken to repair damage or restore resources and capabilities to their prior state following an unauthorized or unwanted activity. This includes backup restoration, automatic removal of malicious software, business continuity, recovery plans, incident response plan and others

Boubyan's technology risk management framework is based on and aligns with various leading risk management practices and frameworks that include:

- COBIT 5 COBIT for Risk, ISACA
- Risk IT Risk for information technology, ISACA
- ISO31000:2018 Risk management principles, guidelines and Assessment Techniques
- PCI-DSS Payment card industry data security standard
- ISO27001:2013 Information security management system
- CSF Cyber Security Framework
- COSO ERM Enterprise Risk Management framework
- BASEL Basel Committee on Banking Supervision Guidelines

Currently there is no particular mandate for Boubyan to comply with specific technology risk management standards; however, the strategic objective for Boubyan Technology Risk Management Function is to ensure the alignment with COBIT 5. COBIT 5 provides the basis to easily integrate with other frameworks effectively, such as the ISO27001, PCI-DSS, Central Bank of Kuwait and IT Governance. To ensure the implementation and adherence to the standards, Boubyan is in alignment with the COBIT 5 for Risk in terms of risk scenario category, risk actors, threat type, event and event description. The COBIT 5 is considered for risk mapping as well, through using the same bases of risk type in terms of strategic risks including IT benefit / value enablement, IT program and project delivery and IT operations and service delivery.

In 2021, several specific training courses were conducted for technology risk champions (5 people), systems owners (10 people), and the Technology Risk Department team. Details on the conducted trainings are shown in the following table.

Technology Risk Team Conducted Training Courses	Duration
Risk control self-assessment - RCSA training workshops	1.5 hours
Technology related Risks and information gathering awareness session	2.5 hours
Technology and related Risks profile management awareness	1.5 hours
Legal, Risk, and Compliance	1.5 hours
The New Age of Risk Management Strategy for Business	1.5 hours

Security and Risk Management	3 hours
CRISC- 1 Governance	2 hours
CRISC-2 IT Risk Assessment	2 hours
CRISC- 3 Risk Response and Mitigation	1.5 hours
Improving Your Thinking	30 minutes
Total	26 hours

### **Operational Risk**

Boubyan's Operational Risk Strategy is developed to reflect the level of operational risk and its specific characteristics as perceived by the Group – that is in compliance with international and local regulatory guidelines. Boubyan defines its operational risk appetite in line with its strategic objectives covering capital, credit risk, liquidity risk, financial performance and operational resilience risk appetite objectives. The prime focus is on the proactive risk identification, robust risk measurement, timely reporting, risk aggregation and embedding of risk information - that supports better decision-making through a proper understanding of risks and their likely impact. The latter is governed by Boubyan's Risk Appetite Policy, Operational Risk Policy, Operational Risk Management Department Control Procedures and Boubyan's Fraud Risk Management Policy – that are reviewed on an annual basis or when deemed necessary.

In line with the overall Risk Management Policy, all operational risk-related issues are attributed to the regulatory business functions as specified by the Central Bank of Kuwait. Disagreements regarding attribution of operational risks are resolved through discussions with the respective reporting functions and affected business areas. Final decisions are recommended by General Manager (GM) for the Risk Management Group. in coordination with the respective department heads and is then approved by BRCC, where required. Furthermore, monthly risk profile reports are shared with the Chairman, covering high and critical related operational risk vulnerabilities and incidents.

Boubyan adopts a process for the identification of operational risks associated with the development of new products and services. Any new products and services are first reviewed and assessed as means of establishing a proactive identification process for any inherent risks - while ensuring mitigating controls are implemented prior to release of the product or service as part of the Boubyan's operational risk framework. The identified risks and their associated vulnerabilities are then mitigated with agreed controls and action plans that are in line with the mandated timelines, the risk rating methodology and criticality of the identified risks.

The investigation frequency of operational risk incidents, conducting of Risk Control Self Assessments (RCSA) and risk monitoring frequency is implemented as per the agreed and approved plans by the risk management department. In addition, information on key indicators and operational losses is assessed and collected on a monthly basis (and each quarter), as part of Boubyan's stress testing and scenario planning and regulatory reporting. This is achieved on a composite model to quantify and monitor operational vulnerabilities and related risks.

In line with Boubyan's Risk Management strategy to embed a proactive risk culture and keep Boubyan's employees updated on operational risks related concerns, in 2021 more than 50 employees attended an Operational Risk Training modules. The training modules covered topics related to operational, fraud and financial crime risks. The number of training hours received were 2 hours per employee.

### Fraud Risk

Boubyan maintains strong fraud risk monitoring and controls to protect the Bank and our customers. For the purpose of Fraud Risk Management, "Fraud" is defined as any act involving deceit to obtain a direct or indirect financial benefit by the perpetrator or group of people in collusion causing a loss to the deceived party. This includes a financial gain in addition to other benefits, such as the right to have access to or obtain information by deceit or any other dishonest conduct. Whether the loss is material or related to an intangible benefit such as intellectual property rights, fraud usually involves a loss to the group, its shareholders or customers and an attempt to hide this loss.

Boubyan has implemented an Enterprise Fraud Risk Management System (EFMS) using a layered approach for proactive real-time & near real-time monitoring of customer transaction activity across products, payment channels, accounts, users and processes. This helps in identifying unusual behaviour that could be a sign of criminal activity, fraud or corruption. The EFMS leverages Artificial Intelligence & Machine learning to achieve a 3600 view of the customer behaviour and profiles to enhance transaction level and account level fraud detection, investigation and prevention.

Boubyan is committed to maintaining high legal, ethical, and moral standards to adhere to the principles of integrity, objectivity and honesty. The Banks takes a very serious approach to all suspected cases, confirmed cases of fraud and/or corruption by its staff and has implemented procedures to handle external fraud and claims affecting Group customers. Boubyan has zero tolerance at all levels for any dishonest & fraudulent behaviour and is committed to preventing such behaviour; treating and responding fully and fairly in accordance with the provisions of the Code of Conduct, Customer Fair Practices and Central Bank of Kuwait guidelines.

Consumer awareness plays a key role to combat fraud modus operandi targeting customers across various segments. Boubyan runs a periodical awareness campaign through all our social media channels (Instagram, Twitter and Facebook). A Security Tips Webpage is made available on Boubyan website and a series of YouTube security tips videos are available on the Boubyan official YouTube channel. Further, the Bank has participated in multiple public forums including TV and Radio interviews and multiple cyber security seminars for education and awareness. The Bank on a regular basis utilizes its mobile application including the automated assistant (Musa3ed) messages and push notifications. In addition, we reach out to our non-mobile banking/internet banking customer through SMS campaigns. Various activities are also coordinated within the Member Banks of the Kuwait Banking Association (KBA) Fraud Control Committee.

### Information Security Risk

Boubyan has comprehensive information security related controls and procedures that safeguard stakeholders' data privacy against any cybersecurity or information security related risks. The Information Security Department's risk strategy articulates Boubyan's plan to reduce risk and promote resilience in its own operations and financial systems. Guided by the Data Protection and Information Security policies, Boubyan ensures that information security risks are continuously identified, monitored, controlled and prevented, and Boubyan's data protection policies govern all Boubyan's relevant business lines and subsidiaries.

Audit reviews on Boubyan's information security policies and systems are conducted annually, in line with ISO27001 and PCI-DSS requirements – and the latest review was conducted in December 2021. Boubyan further conducts third-party vulnerability analysis including simulated hacker attacks, which are conducted internally and externally through Vulnerability Assessment and Penetration Testing (VAPT) and Red Teaming exercises. External independent audits of Information Security Policies and Systems are conducted at least once every 2 years, in line with CBK CSF, PCI-DSS and ISO 27001 standards.

Boubyan has an effective cybersecurity program that covers the regular internal security audits, vulnerability assessments and penetration testing of its systems, products and practices affecting user data. All employees are required to undergo regular training on information security and are required to acknowledge adherence and compliance with all issued policies and standards. Phishing attack simulation, regular internal security audits, security governance audit, vulnerability assessments, penetration testing, and red team engagement are all conducted on a regular basis as part of Boubyan's information security risk management.

As a result of Boubyan's efforts towards information security related risks, no data was lost or leaked in 2021. The total number of attack vectors was 62, whereas a total of up to KD 3,023,500 was allocated in 2021 as the maximum value of the insurance policy over breaches or other cybersecurity incidents.

# 4. Created Socioeconomic Value

#### **Covered Sections:**

Empowered Human Capital Innovative Solutions Sustained Customer Experience Social Responsibility Support for Local Procurement Boubyan is committed to enriching people's lives, through creating employment opportunities, conducting socially responsible initiatives, and empowering future generations – all with the purpose of creating a socioeconomic value for the community.

Throughout our ESG journey, Boubyan continues to cultivate professional talented people and champion their potential all along their career path through providing them with training and development programs that address market needs and empower them with adequate leadership skills. In addition, Boubyan embraces a culture that is socially responsible, inclusive and provides support to the local community.

This chapter represents how Boubyan creates a socioeconomic value through its empowered human capital, community initiatives, and developed innovative solutions that impact and influence the experience and satisfaction of Boubyan's customers, employees and community members.

iovernance and Transparence

reated Socioeconomi Value

#### 4.1 Empowered Human Capital

#### **Diverse Employee Representation**

Fostering a culture that supports a healthy representation of diversity gives a competitive advantage in terms of retaining the finest selection of employees. Boubyan is committed to maintaining a work environment and culture that is inclusive, does not tolerate any discriminative act and reflects the broader community culture it serves.

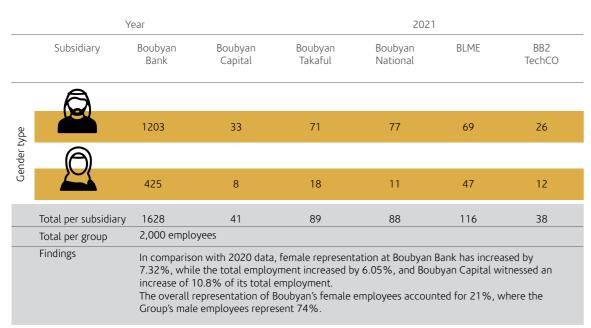

BLME is committed to creating an inclusive work environment that is free of harassment and bullying, and that allows everyone to achieve their potential. As part of this, BLME has established a "Dignity at Work" policy in which covers BLME's managers, employees, contractors, agency staff and anyone else who is engaged with the Bank, whether by direct contractual relationship or otherwise.

BLME does not accept any unlawful discrimination amongst employees and against customers, as guided by the Equal Opportunities Policy. Ensuring that the work environment is free of harassment and bullying and that everyone is treated with dignity and respect is an important aspect of ensuring equal opportunities in employment.

As a result of such commitment, Boubyan witnessed zero discriminative, harassment and bullying incidents. Additionally, all Boubyan employees are requested to report any incidents that are subjective to harassment, bullying or unfair treatment, and address them directly to the Chairman via the whistleblowing channel.

Details on Boubyan's diverse employee representation are provided in the following.

#### **Diversity per Gender**

#### Women in Finance Charter

## BLME's Pledges for Gender Balance Across Financial Services

At BLME, promoting a diverse and inclusive culture in business operations is a core strategic aim of the Bank, as means of providing support to addressing social and racial inequality in the UK.

Having an inclusive business culture starts from top-down management. Each senior leader is responsible for setting the tone of the business operation and is accountable for delivering diversity targets. Similarly, such responsibility is shared by all members of BLME's Executive Committee. All BLME employees are requested and encouraged to participate in initiatives that target raising awareness on diversity and inclusion issues.

In this regard, BLME has become a signatory of Her Majesty's Treasury's Women in Finance Charter and thereby is committed to building a balanced and fair work environment in the industry sector. The Women in Finance Charter is a commitment by HM Treasury where signatory firms work together to create a fair financial services sector, reflecting the government's aspiration to achieve gender balance at all levels within financial sector services.

Signatories are committed to supporting the progression of women into senior roles in the financial services sector and are required to publicly report on their progress against the set targets' achievement, in a transparent and accountable manner.

BLME has appointed 1 female at Board level, and 30.23% females out of total employees are at managerial level positions. However, the total overall female (managerial and non-managerial levels) representation accounts for 40.5% of BLME's total employees. Nevertheless, BLME has assigned targets to be achieved by the end of 2025 related to ensuring that 35% of senior management roles are filled by females and to achieve a fair representation of female vs male employees (50%).

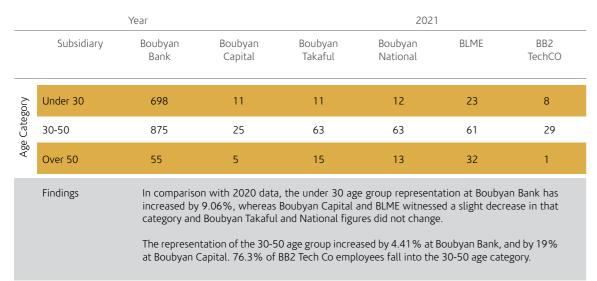

BLME has made significant efforts regarding women empowerment at the workplace: providing training and development opportunities, enhancing the maternity package, supporting the SEO HerCapital programme, and various others.

BLME will continue to report on its gender representation each year to better manage and empower female talent.

70% as per Kuwait regulatory requirements. Boubyan Bank subult maintain is 70% of its employees are Kuwaiti nationals. Moreover, the Kuwaitization rate in executive management and above reached 60.45%. The employee Kuwaitization rate represents an increase of 2.1% compared with 2020 data. The Kuwaitization rate in managerial positions on the other hand, has increased by 4.45% percent change.

The overall nationality representation of Boubyan (covering the 4 above-mentioned subsidiaries) accounted for 71.8% Kuwaitis and 28.2% non-Kuwaitis.

#### Workplace Performance

Having the right people with the right skills in the right roles is essential to achieving excellence along Boubyan's ESG journey. Boubyan continues to seize every opportunity to cultivate diverse talents, through its established assessment center for filtering new candidates. Boubyan is committed to maintaining a fair and ethical work performance culture that is dedicated to retaining its valued employees and ensuring that they have a clear and defined career path.

Initially, Boubyan's workplace performance starts with having a talent pipeline development strategy, that is based on forecasts and hiring needs. Boubyan first identifies the overall Group's long-term strategy in terms of required goals to achieve, and accordingly a candidate sourcing strategy is set in place to fill the employment pipeline.

Boubyan's performance management process is based on conducting a fair and unbiased employee evaluation, where each employee's performance is linked to strategic KPIs measured across balanced scorecards, which are driven by sales and service and are per the set agreed goals to be achieved for the year. Performance goals are set at the beginning of each year (during Q1) and revised when needed by Boubyan's HR Department, the BNRC and responsible line managers. The targets are defined based on each year's business plans, and executives are required to adhere to the KPIs cycle (each January) in terms of the setting and cascading down of KPIs. The performance appraisal process is conducted 2 times per year—once in the midyear, and the another at the year-end, where Boubyan's allocated score and rating reflect their overall performance. The percentage of employees receiving regular performance and career development reviews in terms of performance bonus are 58-60% and 85% in terms of merit increase, while the % of employees going through the Bank's performance appraisal in areas concerning multidimensional performance appraisal (e.g. 360 degree feedback), is 100% for those who are at managerial level and above. On the other hand, the performance appraisal which is related to formal comparative ranking within one employee category, covers 100% of Boubyan employees.

Employees are strongly encouraged to discuss their job performance and goals on a monthly basis with their line managers to seek purposeful approaches for achieving defined goals. BLME has a "Professional and Career Development" Policy and "Performance and Capability" Procedure that govern its performance evaluations, transfers and promotions and succession planning. A Performance Improvement Program is conducted by BLME, designed to improve and enhance employees' performance, where each measure is ideally agreed upon with the employee.

Boubyan is committed to an active succession planning approach and identifies in-house future successors to fill key leadership positions. All senior job roles are reviewed annually in terms of their importance and criticality. Boubyan's succession plan involves planning, analyzing and determining who can fill immediate roles according to the successor's adaptability, skills and competency. The succession planning exercise cycle is scheduled each year in January, April, July and October, covering each quarter's performance. The succession plan is then presented, reviewed and signed-off by the BNRC. Boubyan's succession plan covers the following key elements:

- Critical business roles including executives and department heads
- Emergency cover plan for critical roles
- Intended recruitment streams for permanent replacements
- Internal talent pool for potential successors

Compensating and rewarding our colleagues fairly is deep-rooted in Boubyan's workplace performance metrics. Boubyan believes in gender equal pay and compensation that is based on performance reviews, position level, job roles, tenures and experience and proficiency level. Boubyan regularly conducts benchmarking analysis, to evaluate whether its employee salary scale and allowances are in line with the local market. Thus, Boubyan's compensation schemes and pay are independent of any employee-related demographics and are solely based on individual performance. In 2021, the total value of employee compensation (executive level) was KD 30,813,871, which is an 8% change increase compared with 2020 performance. The non-executive compensation accounted for a total of KD 117,949, indicating a slight percent decrease of 2% compared to last year. The maximum number of years executive remuneration is deferred for is 3 years (whether for CEO or highest paid executive) within its reporting practices, while the percentage of executive salary to which bonuses are restricted does not apply to Boubyan, since bonuses are not restricted at any employee levels. On the other hand, the average years after which long-term incentives for the Bank's employees below the senior management level are paid out expressed as locking period, is 3 years - stating that long term incentives are only from Manager and above. More details on Boubyan's employee pay are provided in Appendix 6.3.

#### **Employee Engagement and Welfare**

Sustaining the relationship that Boubyan has with its employees requires establishing a proactive two-way engagement approach. Boubyan provides employees with the space to communicate openly and honestly and to form meaningful and professional bonds with one another, serving the purpose of achieving the Group's set of organizational and ESG values.

Employees have access to a wide range of engagement channels, in which their feedback and concerns can be directly raised with the Human Resources (HR) team or with their line managers. Complaints can also be communicated through whistleblowing, in an anonymous and confidential manner directly to Boubyan's Chairman. BLME has set out a Grievance Resolution Policy that applies to all employees, allowing them to raise complaints and be resolved in a fair, timely and formally governed manner. The scope of the policy covers a range of grievances that include workplace environment, work allocation, career path and development and others. In 2021, BLME introduced the "CEO Confidential Mailbox," so that employees can directly voice their concerns transparently to the CEO. In addition, BLME runs an employee survey to seek views and feedback as part of ensuring effective employee engagement and that their voices are heard. For the reporting year, the response rate of the conducted employee engagement survey reached 79% with an engagement index of 80%.

This represented a small decrease of only 3% from the previous year with 46% of respondents having joined within the last 12 month period.

To incentivize, engage and motivate employees, Boubyan provides an array of benefits for its permanent employees. The benefits scheme is separate from the salary incentives and may differ from one employee to another depending on their grade level and seniority, while other benefits are provided to all employees. At BLME, this is guided and governed through the Benefits Framework Policy, in which it provides information on how employees are remunerated in terms of benefits and which applies to all permanent full and part-time employees in the UK and UAE. The following illustrates Boubyan's offered non-pay employee benefits.

	Medical Insurance
	Life Insurance
Z	Health Assessment
ງ	Annual Flu Vaccination
X	Family Air Tickets Allowance
	Children Education Assistance
Y	Pension (UK employees)
÷	Permanent Health Insurance (UK and UAE employees - the scheme pays a maximum of 70% of the employee's salary after 6 months of continuous sickness absence, either until the employee is fit to return to work or normal retirement age)
	City Allowance (UK Grades 1-4)
\$.	Grade Allowance
0	Eye-care Vouchers (UK)

Boubyan is committed to supporting the health and wellbeing of all employees as part of ensuring a safe and healthy engagement and experience in the workplace. To facilitate this, several wellbeing initiatives have been adopted as part of Boubyan's employee benefits and engagement mechanism. BLME aims at promoting a positive working environment by focusing on 3 core elements – financial, mental and physical wellbeing. Such wellbeing initiatives and support are conducted on a regular basis and are delivered through BLME's Wellbeing Programme and Wellbeing Hub. The former's delivered initiatives include charity sports events to promote healthy living, stress-therapy massages and wellbeing seminars, while the latter is an independent service of BLME operated by Health Assured and managed by MetLife, providing BLME employees and their family members with a 24/7 helpline and counseling sessions if appropriate.

To promote a healthy lifestyle and green commute to work, BLME has partnered with Evans Cycles, in which the scheme offers substantial tax and NI savings up to 42% on cycling and bike equipment and clothing. In addition to that, BLME offers its employees a gym membership allowance its UK-based employees whereas it fully funds the memberships at Virgin Active or Nuffield Health centres and promotes and encourages physical and mental well-being for its Dubai based employees. Other gym memberships can also be reimbursed up to a specified financial limit and would similarly attract a "benefit in kind" tax via payroll.

As means of shifting the mindsets of employees to recognize the importance of mental health, Boubyan Takaful cooperated with 07-Therapy to provide online mental health counselling services through their application and website. These services are provided to all Boubyan employees, individuals and corporates, giving them access to a network of top-quality psychiatrists and psychotherapists, along with a referral network of specialized clinics and hospitals. By raising awareness of mental health and taking action, the Group further empowers its employees to feel fully equipped, satisfied and ready to carry on with their day-to-day work and responsibilities.

As a result of Boubyan's continuous efforts to sustain the wellbeing and satisfaction of its employees, there were 0 complaints received in the reporting year 2021. (Complaint here refers to non-IT related complaints, and covers any general workplace-related complain, ethical and legal matter.)

Effective employee engagement is one of the many factors that result in higher workplace retention. Boubyan constantly enhances its performance metrics, specifically those that may be considered as drivers for increased employee retention. The workplace culture that Boubyan hosts is one that enables the fulfillment of potential, empowers responsible employee behavior, and provides opportunities to develop. Boubyan focuses on having professional support and guidance at the center of its employee engagement, enabling a work environment where employees feel appreciated, productive and ready to adapt for market changes and earn professional experience.

As a result of Boubyan's collaborative efforts towards ensuring effective employee engagement and welfare, the number of new hires significantly increased for all subsidiaries when compared to last year's performance (excluding BB2 Tech Co as it was not yet part of the Group in 2020). The overall number of new employee hires increased by 147%, compensating for 2021 employee turnover which was higher compared to the 2020 performance. More details on Boubyan's 2021 new hires and turnover are illustrated in the following.

Year			2021				
_	Subsidiary	Boubyan Bank	Boubyan Capital	Boubyan Takaful	Boubyan National	BLME	BB2 TechCO
Boubyan New Hires and Turnover	Number of ne		8	4	4	52	38
Bouby: Hires and	Number of turnover employees	266	4	11	4	40	6

Please note: in 2021, there were no major "employee layoffs," defined as affecting 10% or over 1,000 Boubyan employees. In addition to that, Boubyan assigns a 1 - 3-month notice period to notify its employees of any changes.

As means of disclosing Boubyan's ESG performance, the following represents an illustration of Boubyan's employee absentee rate (expressed as % of total days scheduled). - for a 4 year performance.

Year	Staff Count	Days	Absenteen rate
2021	86	1016	4.5%
2020	59	536	3.5%
2019	120	1708	5.5%
2018	112	1005	3.4%

#### Case Study

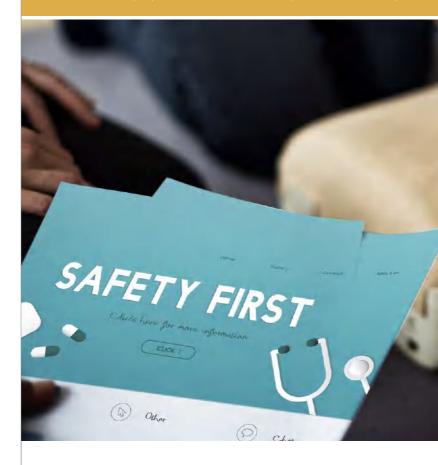

## **Ensuring Employee Health and Safety**

During the COVID-19 pandemic Boubyan demonstrated its commitment to the health and safety of all its stakeholders. As part of its efforts, and as means of supporting the Government towards raising awareness of the COVID-19 vaccination, Boubyan launched an employee vaccination campaign in collaboration with Kuwait's Ministry of Health (MOH). The campaign was conducted in 2 phases, where a total of 1,460 employees were vaccinated. For BLME, there was regular Bank-wide communication as a reminder for employees to get vaccinated, in addition to guest speakers on resilience and coping with isolation and mental health and wellbeing. Other measures were also implemented to ensure employees were equipped and encouraged to work well from their home or the office.

BB2 Tech Co conducted 2 sessions that targeted mental health awareness and nutrition. The sessions discussed how important it is to address mental health and provide positive psychological support and now having healthy nutritional habits can significantly impact and improve sleep quality. Each session was 45 minutes long, with 24 attendees per session.

Furthermore, as part of Boubyan's efforts to ensure that employees are capable of facing emergency situations, a first aid training course was conducted. The training spanned 8 hours, with a total of 89 employees attending the course. The course adhered to the modern instructions and procedures of the American Heart Association, covering pulmonary resuscitation, emergency cardiac care and the treatments of burns and moderate occupational injuries, among other issues. Employees passing this course received a first aid certificate that is approved by the American Heart Association.

As a result of Boubyan's efforts towards ensuring the health, safety and wellbeingof its employees, there were no occupational-related injuries registered for the year 2021.

reated Socioeconom Value

#### Learning and Development

Boubyan learning and development programs aim at providing employees with the opportunity to gain professional knowledge and competitive skills that inspire them to keep pace with the Group's needs, and that equip them with necessary competencies to adapt against any organizational and market changes that are in line with customers' demands.

Boubyan offers a wide selection of training programs, including strategic planning, cybersecurity, risk, leadership, sales management and various others. The total training hours conducted in 2021 for Boubyan (excluding BLME and BB2 Tech Co subsidiaries), reached 20,846 hours, which is equivalent to 10 days based on the employee job role and responsibilities. (noting that 1 day is equivalent to 7 hours of conducted training). The summarized breakdown of the training courses topics is given below, and Appendix 6.6 provides the detailed list of the delivered training courses in 2021.

Description	Conducted Training Hours
All courses excluding AML, Data Privacy, and Information Security	14,117
AML / CFT and Financial Crime	2,482
Data Privacy	2,010
Information Security	2,236
Total	20,846

Part of Boubyan Bank's induction program is to provide new joiners with a customer protection training course. The course covers various topics that are related to customers' financial security and data privacy, in which a total of 474 new joiners attended the course and a total of 948 training hours were delivered.

BLME and BB2 Tech Co offer their employees a variety of training courses that include Board members and line managers as well. A variety of e-learning modules are completed by all BLME & BB2 Tech Co employees covered topics such as fraud prevention, whistleblowing, antibribery and corruption, and preventing discrimination and harrassment.

BLME also provided group training sessions on a range of topics including: Driving and Implementing Strategic Change, Effective Minute Taking, Excel, Financial Modeling, Managing and Leading Teams, and MiFID II. Team off-site strategy sessions were also held. A detailed training course list is presented in Appendix 6.6.

To ensure that BLME's employees who wish to continue their studies or complete personal training courses are in line with the Bank's overall vision and strategy, BLME has a "Training" policy that governs and encourages employee development. BLME is fully committed to its employee training and development and enables employees to submit a request in relation to any type of study or training provided that they can reasonably demonstrate such personal development is likely to lead to improved effectiveness at work, and consequently an improvement in BLME's business performance.

In Boubyan Bank, one of the mandatory training subjects that are delivered annually to all employees is AML / CFT courses. A total of 2,318 employees received the training covering Board members and senior management as well. The training course was conducted for Boubyan Capital, Boubyan National and Boubyan Takaful employees, and the breakdown per number of attendees per subsidiary is as follows:

#### Breakdown of Boubyan's Staff Receiving AML / CFT Training

staff attended the AML / CFT and financial crime from Boubyan Capital

staff attended the AML / CFT and financial crime from Boubyan National

staff attended the AML / CFTand financial crime fromBoubyan Takaful

22

Board member / Senior management attended the AML / CFT and Financial crime

Created Socioeconom Value Boubyan is committed to developing its employees' skills and channeling their ability to adapt quickly and drive impact. As innovation and change are inevitable, Boubyan is focused on spreading the culture of lean and agile working in a manner that accelerates employee development to thrive today and tomorrow. Boubyan's Continuous Improvement Department (CID) strives to spread the "Lean culture" among Boubyan employees by frequently conducting department visits and Lean awareness sessions. The sessions focus on ensuring that all employees are aware of the Lean methodology, and how can they submit their opportunities and start their Lean project's journey. Boubyan's Lean culture starts at an early stage where new joiners are introduced to the concept during their induction sessions. A key responsibility for CID employees is also to coach and mentor Boubyan's project owners and provide them with the support and knowledge required to complete their projects efficiently.

Throughout the year, the CID team conducts multiple 3-day training sessions that are designed to equip attendees with the knowledge required to lead Lean projects. The program is known as "Lean Management". Once employees complete the training, they are known as Lean Ambassadors and are awarded with Lean points to be redeemed for monetary values after the successful completion of each project. In 2021, a total of 20 Boubyan employees received training in Lean management – with a total of 6 CID Department employees certified in Lean Six Sigma: 2 Six Sigma Master Black Belts; 2 Six Sigma Black Belts and 2 Six Sigma Green Belts. Boubyan aims to train more than 25 employees in Lean management as part of its ESG journey.

As part of HR's commitment to employee development, Boubyan offers all its staff a 25% discount on the Master of Business Administration (MBA) program offered by Gulf University for Science and Technology (GUST). To date, a total of 112 employees have been sponsored in this MBA program. In conjunction with the rapid and successive developments that the digital business sector is currently witnessing in Kuwait, Boubyan Bank signed a strategic partnership in cooperation with Duke University in the USA to launch a training program dedicated to empowering leadership skills as a continuous endeavor to support and motivate Boubyan's employees. The program is considered one of the first training programs provided by "Boubyan Business School," which was launched in 2021 by Boubyan Bank. The partnership with Duke University offers courses that are specialized in technology, creativity, innovation, change management, personal banking, leadership and management, which are offered to the Bank's succession planning pool, from AGM levels to Senior Managers. The aim of the program is to develop their strategic leadership skills and enhance their business acumen. The first cohort consisted of 25 participants, starting in September 2021 and is expected to end by February 2022. The second cohort is planned to start in September 2022.

#### Case Study

### **Spreading A Lean Culture**

Boubyan conducts an annual Lean Project Gallery Walk, where project owners display and present their Lean projects for Boubyan management and employees. The Lean Gallery Walk provides attendees with the opportunity to learn about project management skills, analytical and statistical skills, critical thinking and team dynamics. The Gallery further encourages other employees to be engaged in Lean projects and participate in future gallery walks and to be lean certified.

A total of 15 Lean projects were presented in the 2021 gallery walk, and Senior Management were able to closely see the achievements of the projects' owners and engage with them.

As means of spreading the Lean culture, Boubyan developed an in-house tool for raising Lean opportunities. The "Tawasol page" is designed to allow employees to raise their Lean opportunities seamlessly, where each project is then assigned to a CID coach to kick-off the project with the initiator. The page allows for monitoring the progress status for each project and acts as a standard and systematic communication and engagement tool among Boubyan employees. Employees can also choose and claim valuable rewards in exchange for their Lean opportunities raised by Boubyan employees, showing a 20% change increase compared with opportunities raised in 2020. The number of employees engaged in the Lean program is more than 228 employees (which is considered more than 15% of Boubyan Bank's workforce).

A total of 23 projects were completed in 2021, which is considered a 21%-change increase when compared with 2020 performance, as presented in Appendix 6.4.

One of Boubyan's visionary approach regarding its ESG journey from a change management perspective is spreading the Lean management principles amongst the governmental sectors. In 2021, Boubyan's CID team managed to conduct and provide an extensive 3-day training session on lean methodology, where participants learnt how they can optimize and improve their processes. The training was offered to Kuwait Credit Bank (KCB) and the Public Authority for Housing Welfare (PAHW). Around 20 employees attended each session (total of 40 for both sessions) with a total of around 20 training hours.

#### 4.2 Social Responsibility

Boubyan's social responsibility is built on empowering the communities it serves by impacting individuals positively beyond its provided services. Addressing salient sustainability and community needs and ensuring qualitative social development underpin Boubyan's Corporate Social Responsibility (CSR) strategy, from which Boubyan focuses on achieving 6 main thematic CSR priorities:

Each community investment, initiative or event is planned, selected and aligned in accordance with Boubyan's CSR strategy framework and objectives. BLME has a Corporate Social Responsibility policy, in which social, civic, economic and environmental responsibilities across all areas of the business and operations are recognized. The policy sets out how BLME will demonstrate its commitment to CSR programs that are tangible, practical, Sharia'a-compliant and above all are aligned with the ethos of BLME's business. BLME's CSR initiatives fall under 4 key areas, including:

In line with Boubyan's commitment to society, in 2021, Boubyan conducted a number of initiatives in which a total of KD 211,000 was contributed. The initiatives topics ranged from health and wellbeing to SME support and education - as represented in the following.

#### Wellbeing and Health Events and Initiatives

Out of Boubyan Bank's willingness to keep pace with all new developments concerning youth activities, the Bank organized the biggest padel tournament for males in Kuwait. 64 teams participated in the event with 2 players in each team. The tournament had a total cash prize of KD 3,000, with the first-place winning team qualifying for the Qatar International Padel Tournament - where Boubyan Bank will bear all the costs of participation including travel, accommodation and registration. To continue the success of Boubyan's first Padel Tournament for young males, Boubyan then organized the biggest female padel tournament in Kuwait, where a total of 16 teams participated from the community.

#### Boubyan Run

Sports activities are a vital part of our daily lives, and in an attempt to encourage all sports activities and engage with the community, Boubyan Bank organized the Boubyan Run. The challenge was open to everyone above the age of 16 years for both genders and a total of 1,000 participants joined the 5k race. The race had a limit of 1,000 participants, as means of maintaining proper social distancing measures in accordance with the health authority guidelines of Kuwait.

#### "This Time I Can" Challenge

In collaboration with "MyNutribox" application, Boubyan conducted an initiative to encourage members of the community and Boubyan employees to be the healthiest version of themselves and lose weight during the holy month of Ramadan. A total of 62 employees and 150 community members have participated in the event.

To encourage customers to get vaccinated against COVID-19, Boubyan Bank launched a special campaign where they registered through the "Msa3ed" application under "Yes for Vaccine" to enter a raffle. This was initiated in order to support the Government efforts for community mass vaccination, where a total of 18,767 community members have participated. The raffle included valuable prices ranging from travel tickets and expenses to cash rewards.

#### Boubyan's Competition for The Best Volunteer Project

As part of the United Nations' sustainable development goals and in collaboration with the Ministry of Education, Boubyan Bank organized the first competition of its kind in Kuwait for public and private middle and high schools. The competition was organized in collaboration with "Spread the Passion" organization - as an advisor and a member of the judging panel.

Through this competition, Boubyan Bank aimed at integrating in schools the spirit of volunteering activities that contribute to Kuwait's sustainable development.

School teams were assembled to implement a volunteering project whether at school level (inside the school itself) or beyond the school (anywhere in Kuwait), where the projects were evaluated and submitted by each school. The judging panel evaluated each project based on a selection criterion including creativity, innovation, and integration of sustainability - in addition to the applicability of the initiative and the possibility of deploying it within the society. A total of 120 schools participated in the event.

#### Finance Club Festival - Kuwait University

A set of various activities and events that aim to involve all age groups from inside or outside the College of Administrative Sciences, conducted in collaboration with the finance club of Kuwait University.

Supporting the activities of students enrolled in Denver Colorado University

#### Youth Empowerment and SME Events and Initiatives

# Tattaman Campaign with Shighel joined the platform in 2021.

#### Partnership with SMEs during Vaccination Campaign

free drinks.

#### V-Thru Event

Boubyan Bank held a summer entertainment event in Seychelles resort, during which it supported some SME projects, in that they advertised their products with no charges in terms of venue renting. More than 2,000 community members attended the event. Boubyan has an agreement with V-Thru application that allows the facilitation of Boubyan Business Banking customers in the V-Thru app while Boubyan bears the participation fees in the app.

# attended the festival.

# the Café.

Partnership with "Shighel" platform dedicated to supporting talented freelancers. Platform subscribers receive a 40% discount and are offered photography, design, advertisement, copywriting, or any other marketing-related service. A total of 100 subscribers

During Boubyan's customers' vaccination campaign, Boubyan partnered with a group of SMEs who offered vaccinated customers

#### Boubyan Coffee Festival

Boubyan organized Kuwait Coffee Festival for the 4th year in a row to support innovative SME projects specializing in the coffee industry. A total of 30,000 participants and community members

#### Collaboration with 312 Café

Boubyan Bank distributed free coffee to its different customer segments through the collaboration with 312 Café. 312 Café is considered to be a unique project, as all those in charge of providing the service are people with special needs. The free coffee was distributed to around 600 customers, to help advertise and support

To measure and monitor Boubyan's CSR initiatives and events success and determine the level of participants' satisfaction, an online survey is sent to participants post CSR initiatives to capture their feedback and evaluate their overall experience level. The survey questions cover areas that are related to the participants satisfaction level with:

- Ease of registration for the event
- Level of communication and engagement from Boubyan
- Competition and event arrangement
- Boubyan representatives
- Overall experience and feedback on the event
- Suggestions to take into consideration for future planned events

A selected sample of the conducted CSR community feedback survey is presented in the following.

Event	Description	Number of Responses	Overall Satisfaction %
َرُنَّلْ مع بوبیان	Quran recitation and memorization competition, covering various age segments and competition categories – in which the top 3 winners from each category are provided with cash prizes.	93	83%
	On the occasion of the Kuwait's national days celebrations, Boubyan Bank organized a Lego Challenge in collaboration with LEGO THRU and Fantasy World for children from the age groups 5 to 12. The challenge was held through Zoom and children were offered prizes.	19	100%
LOSSE OVERDOSE	As a part of Boubyan's focus on reducing the use of plastic and conserving the environment, each week Boubyan selects a group of winners and delivers coffee to their houses in reusable cups. In return, each time the customer uses Boubyan's reusable cup, they will get a 20% discount at any Dose Café branch (valid for a specified period of time).	93	91%

Boubyan's socioeconomic contribution is also highlighted through its charitable initiatives and events that serve various philanthropic causes in cooperation with a number of entities and NGOs. In 2021, a total of KD 69,000 was donated for a selection of significant initiatives impacting a number of beneficiaries in the community in areas related to health, living standards and education - as illustrated in the following.

Number of

beneficiaries:

84 students

#### Charitable Event

#### **Boubyan Reading Marathon 8**

In cooperation with Clinica Dental Center and Takween Bookstore, Boubyan Bank donates KD 1 for each 10 pages read by the bookstore visitors - to help educate students with financial difficulties hindering them from having proper education standards.

Over the past 7 seasons of the Charitable Reading Marathon, KD 35,000+ was donated through the participation of thousands of readers who read 300,000 pages approximately, thereby contributing to the education of more than 350 students and giving them the chance to continue their studies, empowering them to achieve their targets

#### Charitable Event

#### **Boubyan Steps**

Boubyan Bank has launched (Boubyan Steps at Al Shaheed) campaign, which is open for everyone to participate. The campaign aims to support diabetics and the activities of the "Blue Circle" (NGO), where Boubyan Bank will donate KD 1 on behalf of each person who downloads the app.

Participants who download the app may join in the competition where the top 20 of those exercise walking at Al Shaheed Park while using the App will be chosen as winners and win valuable prizes.

Additionally, in Ramadan Boubyan organized its charitable event, "Boubyan Steps," in which the Bank donated KD 1 per each 5 minutes of walking. The revenues of the campaign were donated to eyesight restoration surgeries, performed in Noor Boubyan campaign in Africa.

#### Charitable Event

#### Negsat Boubyan

Negsat Boubyan focuses on involving various segments of the society during the Holy Month of Ramadan, and raising the importance of solidarity of donating food to those who are in need.

The total number of Boubyan employee volunteers was 10, with a total of 10 volunteerism hours dedicated for the event

Charitable Initiatives

#### Kuwaiti Registry for Visual Impairment

In Cooperation with Al Bahar Eye Hospital, Boubyan Bank financially supported the Kuwaiti Registry for Visual Impairment to achieve the following:

- A database for the visually impaired in Kuwait
- A research database for the common causes of visual impairment • A database for doctors and researchers in the field of visual impairment in Kuwait
- The identification of the extent of the problem of visual impairment and its impact on the economic
- and social field of the injured
- The preparation of an annual report with the results findings

BLME is committed to supporting a number of charities and to spreading the charitable spirit within its workplace and among its employees through the means of fundraising and volunteering opportunities. Guided by the "Charitable Donations Policy" BLME donated a total to various to KD 28,527 in 2021 to various entities as listed in the following.

#### **BLME's Donations List**

82 Boubyan Group | Sustainability Report | 2021

Number of beneficiaries: 50,000 participants in Shaheed 5.000 beneficiaries for Noor Boubyan Campaign

Number of beneficiaries: 1,000

Beneficiaries: Vaccination Center

Furthermore, in 2021 BLME partnered and sponsored a number of entities to deliver impactful CSR initiatives that target entrepreneurs, students, food banks and various other beneficiaries – as illustrated in the following.

#### **BLME's CSR Sponsorships and Partnerships**

#### **Future Frontiers Mentoring Program**

BLME has spearheaded its own education program through the partnership with youth charity "Future Frontiers." Employees were provided with the opportunity to act as a coach or mentor to Sixth Form students. Through this program BLME employees have mentored children of the age group 16-18 years old that come from underprivileged backgrounds, as a way to provide them with a qualitative education opportunity. In 2021, a total of 13 BLME employees participated in the program as volunteers, and 360 volunteering hours were achieved.

SEO	London

SEO /LONDON

uture

BLME partnered with SEO London to help prepare students from ethnic minority or low socioeconomic backgrounds to achieve career success – by offering them superior educational, training and mentoring support. In 2021, a total of 5 BLME employees participated in the program as mentors, providing 5 mentoring sessions to 5 students before the summer break, each having 1-hour education session.

WILDHEARTS

WildHearts Group is a portfolio of companies that, through their activities and profits, deliver entrepreneurship education and microfinancing services. BLME's UK offices obtain office supplies via WildHearts Office as a means of supporting social change for local entrepreneurs.

#### Change Please

A coffee place where 100% of its profits goes to people experiencing homelessness, or housing difficulties, as means of providing them with onwards opportunities. As means of supporting such initiative, their coffee beans are used in BLME's London office.

This is a social enterprise that works with young Londoners living in temporary accommodation. It provides a pathway towards independent living by inviting them to train with a team of hospitality experts to deliver culinary events and catering across London.

#### Harry Specters

This is a business dedicated to crafting delicious chocolates that creates employment opportunities for young people with autism. The chocolates have won numerous awards for their taste and hundreds of young people with autism have a brighter future because of them. One way that Boubyan engages with the community is through its social media platforms. The primary social media platforms used are Instagram (3 accounts) and Twitter, and the secondary ones are LinkedIn, Facebook, YouTube and Snapchat. Various events, sponsorships and competitions are organized and publicized through Boubyan's social media, with the content being carefully chosen and is in compliance with mandates. More details on Boubyan's community engagement through social media are provided in the following.

#### 4.3 Innovative Solutions

As a customer-focused bank, Boubyan offers a full range of innovative and financial services to its customers under different customer segments including Corporate Banking, Private Banking, Business Banking, Personal Banking (Retail), Insurance and Real Estate. Boubyan understands the varying demands of each set of customers and the offered services are designed to satisfy their business needs - and match the market demands among other benchmarks of similar industry sector.

To ensure the maximum quality of Boubyan's innovative solutions, all products and services are rigorously tested internally against Boubyan standards to evaluate new products' functionality, efficiency and usability before it is rolled out to customers. There is continuous feedback from Boubyan's customers through surveys and benchmarking studies, in which such feedback is incorporated in Boubyan's future product developments.

The Group's approach relies heavily on using technology and innovative solutions to offer best-in class services that sustain customer engagement and loyalty and provide them with an exceptional experience. More details on Boubyan's innovative solutions and offerings are provided in this section, categorized per subsidiary.

#### **Boubyan Bank**

Boubyan Bank offers its customer a wide range of services catered to serving its personal, private, business and corporate customers, all of which are Sharia'a compliant. Customers have access to all of the Bank's services and products either by directly visiting the branches, or through Boubyan Bank's website and available mobile applications. Depending on the account type, services may range from finance solutions (i.e. Murabaha, Ijara, Trade and Treasury) to fixed deposits (i.e. Wakala) and trade and banking solutions (i.e. loans and cards).

In total there are 45 operating branches, 6 of which are dedicated to serving special needs customers, located strategically all over Kuwait to serve the needs of customers, in which all of the Bank's operations are in compliance with CBK's mandates and directives. Boubyan Bank staff are trained to provide services via sign language in those specific special needs branches, and the ATM machines and printings are braille user-friendly. As of 2021, Boubyan has 43 Interactive Teller Machines (ITMs) and 261 Automated Teller Machines (ATMs), indicating a 10.2% change increase in the former and a 5% increase in the later when compared with 2020 data.

Boubyan Bank has a robust loyalty program where customers get rewarded based on transactions done on their credit card. Customers can redeem their rewards earned into cashback or against booking online air tickets, hotel accommodation or via valuable e-vouchers.

In 2021, several new products and services were launched to our customers. One key achievement for Boubyan Bank was the launch of "Prime" App, optimized and dedicated to serve the needs of young people. Boubyan Bank's PRIME App includes various features integrating services such as Pay Me, cardless withdrawal, Waferli, and Fils Challenge, as well as management of beneficiaries and all kinds of transfers. Students aged 15-25 can easily open a bank account via the app and have a card issued digitally. Prime has countless collaborations offering discounts to various brands, restaurants and gyms – with weekly prizes and promotions.

To date the total number of users has reached 73,000. The main significant impact of the app launching is that it has significantly increased the Bank's youth segment – resulting in higher customer engagement and a positive word-of-mouth for future acquisitions.

Boubyan Bank's Private Banking is designed to ensure that the financial needs of elite customers are met through the specially tailored innovative banking services, products and solutions. Private Banking customers have access to a private Relationship Manager and a dedicated call center - available around the clock, to help define financial goals and plans and help them reach them successfully. The Private Banking offered consultations also include the following:

- Consultation on investment tools and decision-making
- Banking and investments planning
- Capital management
- Wealth protection and asset management
- Credit and Sharia'a-compliant banking provisions

The Boubyan Private Banking customer segment are also offered special discounts on Boubyan Takaful products, specifically on travel insurance, personal accident insurance and housing insurance.

#### **Boubyan SME Banking**

We have setup our SME deprtment, inline with Boubyan's mission of foucusing on our customers, as a one-stop-shop for our customers in all their needs. Our aim is to create a lasting relationship with our customers by providing seamless services for their business needs.

Boubyan continues to support its SMEs through retail banking, whereas the Consumer Banking Group provides numerous services to SMEs under the Business Banking Department. Looking specifically at Boubyan's clients, business banking experienced significant growth in the number of clients by 164%, and the portfolio grew by 22% in 2021.

Several unique approaches have made Boubyan Bank the leader in the Kuwait Market for services provided to SMEs, where it was the first of its Kind Kuwaito Bank to provide fully functional digital business mobile application – dedicated to serving its entrepreneurs small and medium businesses. The following summarizes some of Boubyan Bank's SME digital tools.

#### SME Mobile Banking App

A fully functional mobile banking application for businesses in Kuwait with more than 100 financial services, including new services and enhancements to provide the users with a wholly unique experience through a highly interactive design that provides everything a customer needs to manage his banking transactions on the go and is available on all platforms and mobile stores.

#### ePay

The first and only link payment for business that a bank has offered in Kuwait, ePay, facilitates the collection of payments for businesses by sending the invoice in an SMS to the customers, who can settle the amount online using their debit card. It includes invoicing, QR code payment, Bulk payment, and products and services listing.

76% Increase in the

number of users

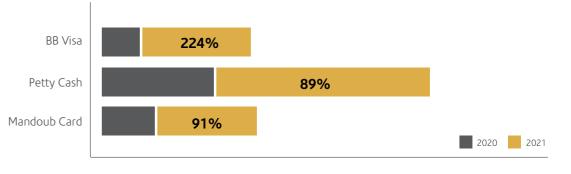

41% Increase in the number of transactions

Increase in the total KWD amount

#### Petty Cash Card

The first of its kind in Kuwait, a prepaid petty cash card is part of a comprehensive Business Banking solution designed to allow you to manage smoothly and easily your various business banking transactions. These prepaid petty cash cards will make managing petty cash in the business simple and straightforward by giving the business owner the flexibility to set spending limits and monitor expenses in real-time, the demand for this card has increased significantly due to the need of customers. The sales of the card grew by 89% last year.

#### Partnerships with key service providers in the startup ecosystem

We have become the most convenient bank for SMEs; Boubyan enhanced its value proposition by building partnerships with key service providers in the startup ecosystem to become a onestop shop for SMEs. With our marketplace, customers can find the following services:

Every entrepreneur has a story to tell. Boubyan Bank aims to be part of such success stories by providing unique service that match their goals and aspirations, leading Boubyan to become their go-to bank. With key insights and mentorships in every step of the way, Boubyan Bank will lead planned small business to a journey of excellence and achievements.

#### **Boubvan Capital**

Boubyan Capital is considered the sole investment arm of Boubyan Bank, which is regulated by the Capital Markets Authority and is Sharia'a compliant. This subsidiary is dedicated to delivering strategic advice and solutions, aimed at guiding clients towards achieving their goals and growing their wealth at optimum levels, or at expanding their wealth portfolio using the most innovative world-class investment methods.

Boubyan Capital, offers services that have well-diversified portfolios and that balance longterm goals with short-term ones, with the focus on providing the following core services:

 Asset Management and Investment Funds (Boubyan KD Money Market Fund II, Boubyan USD Liquidity Fund, Boubyan Multi Asset Holding Fund, Islamic Global Sukuk Fund, Local and GCC Equity Fund, Ijara and Structured Leasing)

- Alternative Investments
- (Real Estate Local and International Acquisition and Management)

• Brokerage

#### • Boubyan Invest

In 2021, Boubyan Capital expanded its service, in particular the expansion of the brokerage market coverage with the inclusion of the US Over the Counter (OTC) market.

Boubyan Capital is committed to incorporating cutting-edge technology to provide its investors with a unique Sharia'a-compliant investment experience. To ensure that Boubyan Capital products are aligned with market developments and client preferences, surveys are conducted (i.e. IPSOS Wealth Management Survey) against other peers and benchmarks in the industry. In addition, an investment risk questionnaire is designed to measure client's specific risk tolerance and their appetite towards investing.

Boubyan Capital's long-term investment philosophy is to focus on core investments that have an attractive return relative to its risk appetite. This philosophy stems from the overall conservative approach towards investing and is also reflected in the Group's products and service offerings to clients.

When it comes to the subsidiary's ESG considerations, Boubyan Capital has specific criteria in place over managing its real estate. No real estate is considered for acquisition until it is ensured that it has no building or tenant violations. In terms of whether the criteria scope covers the management of green building, currently this is not considered mandatory; however, Boubyan Capital manages one LEED Gold certified building, its CITRIX Building in North Carolina.

#### Brokerage APP

Boubyan Capital's Brokerage App is a Sharia'a-compliant innovative trading platform. It allows clients to buy and sell securities in the local, GCC, European, and US markets, with competitive commission pricing. In addition to stocks, clients can also trade sukuk via the platform.

Clients are entitled to access to 18 markets through 1 account that features instant funding for trading that includes immediate order placements. Clients are also able to view their Portfolio Summaries to analyze and manage their portfolios with a status panel, and get updates about their Portfolio Status Valuation with reference to the prices change in the market.

In addition, custom and smart watch lists are offered to enable clients keep track of their desirable exchanges. Trading alerts and market depth information by price and order are also available for clients. Summaries of global markets and commodities and the top stocks including gainers, losers and most active are also presented in a live manner within the App.

#### **Boubyan Invest**

Boubyan Invest is a digital investment tool created by Boubyan Capital, designed for those who are looking to build a smart investment portfolio. It is the first fully Sharia'a-compliant Robo Advisory intuitive digital investment platform that provides smart investing without high fees or the hassle associated with traditional investment. The platform facilities include personalized automated investment based on the client's individual risk levels.

Boubyan Invest provides 2 investment streams (via digital onboarding):

- Robo Advisory: Customized investments constructed to match specific client goals and risk tolerance. This stream allows investment in various asset classes via smart investment portfolios tailored specifically to clients.
- Boubyan Capital Funds: This is a standardized investment stream which allows clients to access and select from an array of leading Sharia'a-compliant funds managed by Boubyan Capital.

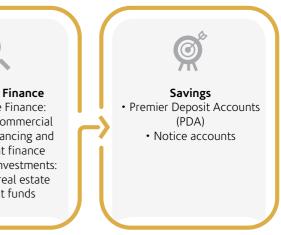

#### BLME

BLME is a Sharia'a-compliant bank, providing Real Estate focused Wealth Management solutions, Commercial Real Estate Finance and Savings Products. BLME is committed to providing personalized financial solutions tailored to clients' needs, by upholding outstanding customer service. Customers have access to a variety of competitive saving rates and a wide range of benefits, and with eligible accounts that are protected up to the statutory limit – as BLME is registered under the Financial Services Compensation Scheme. Moreover, BLME is authorized by the Prudential Regulation Authority and regulated by the Financial Conduct Authority and the Prudential Regulation Authority.

Through BLME customers can access market-leading Real Estate investment opportunities in UK or obtain specialist financing for a commercial property, holiday home or residential buyto-let property. The following summarizes the main available services that are offered to BLME customers (excluding BLME's Nomo customers).

Real Estate Finance • Real Estate Finance: Provision of commercial real estate financing and development finance • Real Estate Investments: Commercial real estate investment funds

#### Case Study

# Nomo: The World's First Islamic International Digital Bank

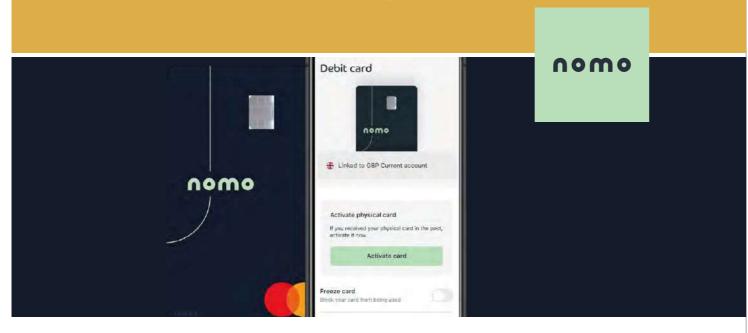

BLME and Boubyan Bank are proud to have launched the world's first international Islamic digital banking business. Launched in 2021, Nomo aims to provide customers with seamless, secure, and Sharia'a-compliant digital banking. It gives account holders in Kuwait and the UK access to a suite of state-of-the-art offshore banking products, including daily banking, simple wealth management solutions and new investment and payment products, all managed via the Nomo App.

Upon opening a Nomo account (via digital onboarding), customers have access to current and fixedterm deposit accounts in both GBP and USD. It also offers a GBP debit card and domestic / international payment capabilities. Nomo targets the affluent and mass affluent customers' segment residing in the GCC. As of 2021, Nomo had acquired 4,073 customers, whose deposits are fully covered up to the value of £85,000 by the UK's FSCS. To ensure customer retention and satisfaction, Nomo users may direct their feedback through the App store by submitting their rating and review, or via social media posts or customer service.

Bringing access to UK banking to GCC residents is the biggest impact of Nomo, as it offers the chance to diversify customer portfolios and mitigate location risk whilst growing their wealth. Nomo allows customers to securely access their UK bank account from wherever they happen to be, by simply downloading the app and opening an account with a single click.

Nomo has a significant role in terms of impacting the community through technology and innovative solutions, through creating digital, self-serve journeys for customers using technology - allowing them to open a UK bank account directly from their iPhone in 8 minutes, subject to satisfying completion of the UK on-boarding requirements. Nomo's customer cycle is fully digitized and allows 24/7 access to global banking, therefore resulting in various savings in terms of creating a responsible banking experience.

One of Nomo's areas of impact is that it results in several environmental savings due to its digitized features meaning less resources are consumed. It also impacts the community in terms of reachability and accessibility to state-of-the-art innovative tools and through enhancing the overall economic status of the community, as a result of its individuals diversifying their income.

#### Boubyan Takaful

Boubyan Takaful is a Sharia'a-compliant insurance company, committed to serving customers with high-quality insurance products and plans that accommodate their insurance needs. Boubyan Takaful services are offered to both corporate and individual clients, where the following illustrates the diverse offerings of each.

#### Workmen Compensation

Compensation for bodily injuries for the client's employees as a result of occupational accidents.

Boubyan Takaful customers have the privilege to access and onboard digitally to any of the subsidiary's offered services and products via Boubyan Takaful's website or app. In 2021, a total of around 1,400 customers have digitally onboarded and enrolled in Boubyan Takaful services through a simplified and seamless registration process.

# Case Study Boubyan Drive

In 2021, Boubyan Takaful launched the "Boubyan Drive" program that measures driver's behavior, as means of increasing the community's awareness of driving safely – and thereby decreasing the number of accidents. It provides users with the ability to gain rewarding points that can be redeem for prizes from Boubyan Takaful strategic partners. Points are gained weekly based on users' driving habits.

Once the application is activated, the GPS monitor will start to measure the user's driving habits in terms of speeding, braking and mobile usage while driving.

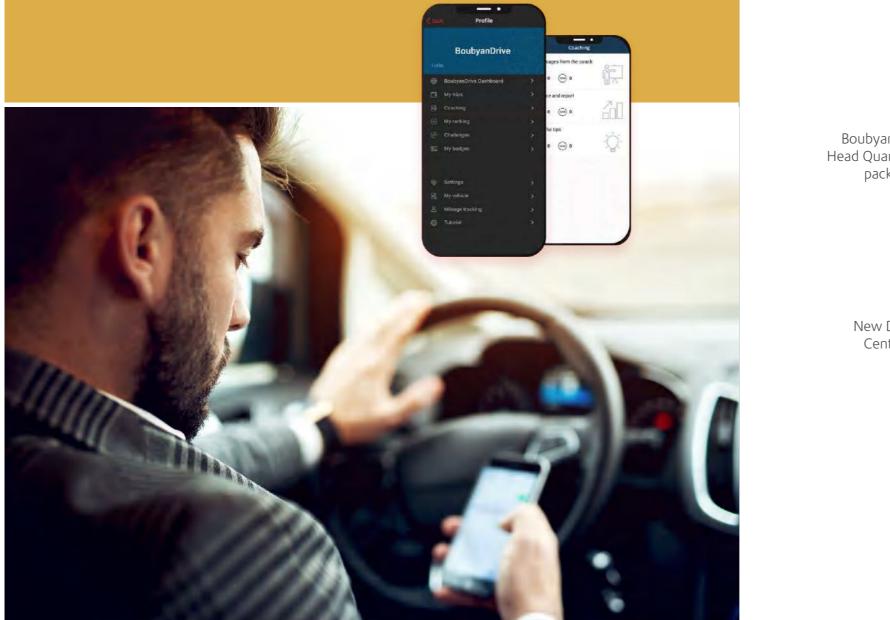

The points will be collected based on the rating given by the application on the driving behavior. The redeemed points can be in the form of discount codes, free insurance policies and much more.

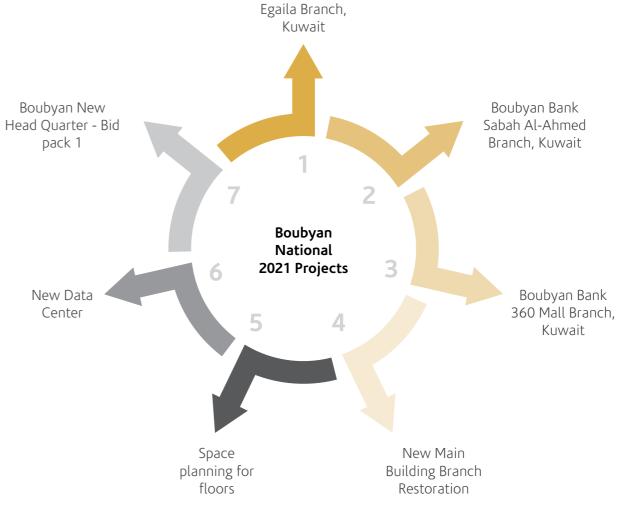

Boubyan National is a Real Estate Services Company operating in accordance with the Islamic Sharia'a in all its transactions. Boubyan National aspires to become one of the pioneer and reliable companies in the field of contracting, facility management and real estate services in Kuwait by creating value for shareholders, customers and the communities where it operates. This subsidiary provides a variety of project management services tailored to each client's needs, along with managing and monitoring the assets of the Group and offering general contracting and security guarding services.

Boubyan National has established and constructed several projects that range from residential buildings and storage facilities to the construction of the Group's facilities and bank branches. In 2021, a total of 7 projects were completed and constructed as illustrated in the following.

Boubyan Bank

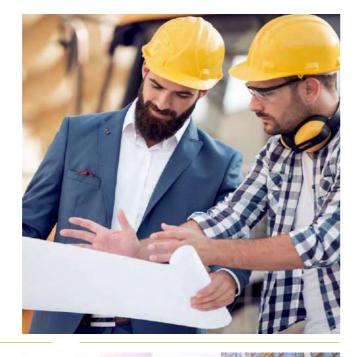

The detailed offerings and services provided by Boubyan National are shown in the following.

#### Project Management (Design and Construction) Services

Providing a variety of project management services that are tailored according to each client's needs. Upon the request of the client, the Project Management Division will prepare the scope of work for the project and will provide the services and then the required approvals. In general, the work will be carried out in 2 phases through the Design and Construction Departments as mentioned below and the related procurement contracts shall be treated as the construction contracts. For projects under development, the department monitors cash flows and issues periodic variance and status reports to concerned parties.

Property and Facility Management

Managing and monitoring the assets of the company including incomegenerating properties and properties under maintenance.

**General Contracting** Handling interior modifications with a vision to expand more in the field of general contracting.

**Guarding Service** Providing security guards and guarding services of properties for a number of clients.

#### Boubyan Digital Identity

Boubyan has set goals in place regarding the digital marketing of its innovative solutions. It aims at increasing awareness for the brand and products, by generating quality traffic on the Group's digital channels and ensuring efficient digital marketing orchestration.

Boubyan believes that strengthening its brand identity will aid in maximizing customer acquisition, as customers can explore and benefit from alternative ways and innovative solutions to answer their banking needs. More details on Boubyan's digital solutions are provided in Appendix 6.5.

#### Case Study **Boubyan Bank Accelerator Program**

Dubai International Financial Centre

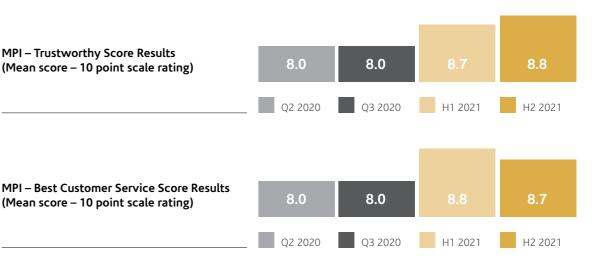

#### **4.4 Sustained Customer Experience**

Establishing an ESG journey requires reflecting a sustained customer experience that relies on providing accessible services, quality and cost-efficient products, responsive customer care and innovative solutions – all of which serve to satisfy a diverse segment of clients.

Fort the 12th year in a row, Boubyan has been ranked first by Service Hero, and has been recognized as one of the leading Kuwaiti banks (Islamic and conventional) by the CSI Index. To Boubyan every customer is equally important in terms of listening to their feedback and in aligning the Group services and offered products to meet their expectations.

In 2021, Boubyan continued to track its performance regarding customer experience by conducting customer-related surveys, through mystery shopping surveys, and online or telephone surveys. The main survey question areas covered customers' overall satisfaction level with employee professionalism, sales and soft skills, and product knowledge, and the survey results are presented later in this section.

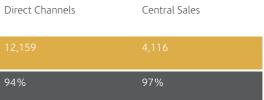

Boubyan Bank maintained its position as the top trustworthy bank in Kuwait as per the Market Performance Index (MPI) results for 2021, and is rated as ahead of all banks in Kuwait on the perception of being "A Bank that Thinks Ahead." The results of Boubyan Bank's MPI are shown in the following, noting that the survey is conducted twice a year, with a sample size of 2400 random selected customers.

Boubyan Bank Conducted 24,057 Customer-Related Surveys (Mystery shopping, Onboarding Customer Experience Surveys, Event Driven Experience, & Call Monitoring):

Channel	Branches
Number of Evaluation Participants	7,782
Score	94%

Three surveys were also conducted in 2021 to evaluate the Customers' Happiness Index (CHI) of Boubyan Bank's digital services in the mobile apps, in particular Msa3ed, Western Union and Pay Me services with the CHI scores as follows; Msa3ed 71%, Western Union 78%, PayMe 86%.

Another way that Boubyan Bank measures customer loyalty and satisfaction is through the Customer Satisfaction Index (CSI) and the Net Promoter Score (NPS) results. These are conducted to evaluate how likely it is that customers would recommend Boubyan's products or services to others, allowing Boubyan to determine the reasons why customers may like or dislike any of the products or services that are being offered.

The following illustrate Boubyan Bank's Customer Satisfaction Index (CSI) and Net Promoter Score (NPS) results, giving data for the reporting year and the previous years as well.

#### Customer Satisfaction Index (CSI) Survey

Year	Boubyan Customer Sample	% of Satisfied customer respondents out of total customer sample	
2021	250	95%	"Boubyan's 2021 targeted

2021	68%
2020	72%
2019	73%

Boubyan has a Customer Retention Unit in place that is responsible for maintaining the Bank's targeted customers pool, often through solving customers' concerns and evaluating customer retention efficiency – which is measured on a periodic basis. Customer turnover is determined once a clearance certificate / Buyout request is issued, or when a customer requests cancelling a product (i.e. credit card). Similarly, Boubyan's Customer Complaint Unit has a role in sustaining customers' experience, through tracking all received customer complaints and managing them in a timely manner. Several customer-related channels are available, where complaints can be raised either via phone, email, walk-in, branch, mail or through Boubyan's mobile applications. All official complaints are to be resolved within 15 working days as per the Central Bank of Kuwait (CBK) guidelines, where Boubyan Bank was successful in meeting this requirement for all complaints raised. BLME complaints took a maximum of around 28 days to resolve during the year. Regarding customer care complaints, the turnaround time for resolving the issue depends on the complaint's case. Usually they are resolved within 24 hours but in some cases it may take more than a day.

The following illustrates Boubyan's performance metrics regarding the number of customer complaints received for the reporting year and previous years' performance.

#### **Customer Care Complaints**

ustomer care complaints				
	2021	2020	2019	
Boubyan (Excluding BB2 Tech Co)	1,094	957	4,050	
BLME	15	19	34	
Findings	The number of BLME con showing a 21%-change de decrease compared with 20 For Boubyan, there was complaints received when decrease when comparing	crease compared wit 019 performance. a slight 14.3%-char compared with 20	h 2020 performance and a nge increase in the numb 20; however, there is a d	56% ber of

The breakdown of Boubyan's received customer complaints per channel is illustrated in the following (excluding BLME and BB2 Tech Co related data).

#### Customer Care Complaints per Channel

Once a complaint is submitted, BLME ensures that it is resolved fairly and in a timely manner. In the case that BLME is not able to resolve any customer complaint within 5 business days, a letter will be sent to the customer providing them with a summary of their complaint, and the name, job title and contact details of the person handling the complaint.

In the case where complaints are filed regarding BLME products (other than electronic money or payment services), a final response letter will be sent within 8 weeks explaining the outcome of the complaint investigations, and how the customer can pursue the matter further. If the customer does not respond within 8 weeks from the date they received the letter, the matter will be considered as closed. If any customer is dissatisfied with their complaint's resolution, they have the right to contact the Financial Ombudsman Service (FOS) within 6 months of the date of the final response letter or 8 weeks after the complaint was received by BLME. The Department manager or Compliance team will then investigate the matter and ensure a response is sent within 5 business days.

#### 4.5 Support to Local Procurement

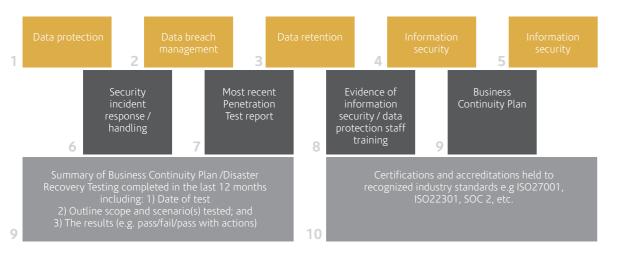

Boubyan is committed to providing its suppliers with fair and equal opportunities, with Boubyan ensuring that proper human rights and labor standards are adhered to throughout the supply chain and procurement practices, and are in compliance with Kuwait's Ministry of Social Affairs (subjective to entities located in Kuwait).

An integral part of Boubyan's ESG journey is upholding sustainability and ESG practices within its supply chain and screening criteria. BLME has deployed a new supplier assessment process, which is compliant with the European Banking Authority (EBA) and meets the updated UK regulatory expectations. To safeguard BLME's supply chain practices against potential risk, an "Outsourcing and Third-Party Management" policy has been developed. The policy provides the minimum standards that govern identifying, assessing and managing risks that may arise throughout the supply chain cycle, while ensuring that BLME complies with all applicable legal and regulatory obligations, which include but are not limited to:

- EBA Guidelines on Outsourcing Arrangements 2019
- Financial Conduct Authority (FCA) SYSC Chapter 8 Outsourcing Requirements
- Outsourcing Part of the PRA Rulebook
- Commission Delegated Regulation (EU) 2017/565 on organizational requirements and operating conditions (the "MODR")
- UK Data Protection Act 2018
- General Data Protection Regulation 2016
- Money Laundering Regulations 2020
- Bribery Act 2010
- Proceeds of Crime Act 2002
- Modern Slavery Act 2015

Suppliers are required to complete a Third Party Risk Management (TPRM) due diligence questionnaire and submit their responses back to BLME, along with supporting evidence and required documents, and this shall be reviewed as part of the selection and supplier assessment scoring criteria. The questionnaire covers attributes related to risk management, governance, cybersecurity and business continuity, to name a few. An illustration of the required documents to be submitted by BLME potential suppliers as presented in the following.

#### **Documentation Required in BLME Supplier Questionnaire**

To maintain sound and ethical conduct, all suppliers shall adhere to and comply with Boubyan's code of conduct during the engagement process. Upon signing the contract, all suppliers, contractors and service providers are therefore considered to be covered under Boubyan's code of conduct and that they have acknowledged it, whether it was a written or digital acknowledgement form. Please note that Boubyan does not provide any training on its code of conduct to any of its suppliers, contractors or service providers. The code of conduct articulates that each supplier, contractor or service provider shall show integrity, accountability, responsible business practices and fair treatment to its individuals during their engagement with Boubyan.

Part of Boubyan's responsibilities towards its suppliers is maintaining their safety through applying proper occupational health standards. All contractors are to abide by the safety regulations implemented by governmental authorities, and each shall ensure that safety officers are available on construction sites and that staff are committed to all safety measures. To monitor the satisfaction of Boubyan's suppliers, an evaluation survey is sent, in which suppliers provide their feedback on areas that concern project management efficiency, materials availability, price competitiveness compared to the market and after-sales quality.

In 2021, the local supplier expenditure for Boubayn (excluding BLME and BB2 Tech Co) accounted for a total of KD 27,795,777, while the foreign expenditure was KD 4,137,750. This is reflected as a 27% change increase in local procurement expenditure and a 12% increase in foreign procurement, when compared to 2020 performance. For BLME, the total annual spent in GBP on local suppliers accounted for 15,938,765 (which is equivalent to KD 6,533,718.33), while a total of GBP 441,374 was spent on foreign suppliers (which is equivalent to KD 180,930.8).

Boubyan believes that supporting and empowering local suppliers results in several indirect environmental and social impacts that support the local community's economy and promote a culture of ethical and sound labor practices –free from any forced or compulsory labor and child labor. BLME is committed to ensuring that its supply chain is free from the practices of modern slavery and human trafficking. Appropriate training sessions on this have been provided to BLME employees, and BLME's policy for onboarding suppliers guides employees on the required actions to be taken to address the Act's requirements.

# 5. Monitored **Environmental** Performance

Boubyan Group operations are considered as low and modest in greenhouse gas (GHG) emissions are continuously measured. Boubyan aspires to further advance its capabilities regarding climate risk management and continues to invest and advance in technology and digital solutions, as a means of addressing complex environmental challenges and mitigating impacts.

13 ACTION

#### 5.1 Carbon Emissions

Reducing carbon emissions and energy use is essential to any entity that wishes to address and take a stand against climate change. In 2020, Boubyan started the practice of measuring and reporting on its carbon emissions and is committed to continue such practice annually. Due to the COVID-19 pandemic, 2020 GHG performance shall not be considered as the baseline year; consequently, 2021 shall be the referenced year for future baselining.

Greenhouse gas (GHG) emissions are often broken down into measuring and assessing 3 scopes—scope I, scope II, and scope III—each of which reflect different sources of emissions. Boubyan reports in 2021 its scope I emissions as generated from Boubyan's owned cars' fuel consumption and generator fuel consumption, being direct emissions that are owned and under its control. Scope II emissions were derived similarly from the same sources as in 2020, namely from the use of electricity being purchased by Boubyan. Lastly, scope III emissions for 2021 were derived from business travel and commuting undertaken by Boubyan employees, as well as courier services.

The practice of measuring, assessing and reporting Boubyan's carbon emissions shall be adopted on a yearly basis, with the aspiration of establishing a climate risk framework and targets for offsetting and reducing GHG emissions over the upcoming reporting years. As for BLME, it aspires to no longer offer specialty finance, including for yachts, luxury cars or private aircraft. In addition, it aspires to continue the offering of its employees training regarding climate change risk awareness.

The following gives more details on Boubyan's baseline GHG data and performance for the reporting year 2021 and provides a comparison with the performance in 2020 and 2019, where applicable.

Scope I				
Boubyan-owned cars' fuel o	consumption 2021	2020	2019	
GHG emission (MTCO2e)*	78.2	75	118	
Intensity per employee*	0.042	0.04	0.06	
Findings	There was a slight %change increase of Boubyan's GHG emissions when comparing 2021 performance with 2020, expressed as only 5%. Such an increase is considered still as a positive performance and impact considering that 2020 was a pandemic year and 2021 operations are back to normal.

#### 5.2 Electricity Consumption

As Boubyan goes about its ESG journey, Boubyan continues to measure energy consumption resulting from daily work and business operations. At the end of 2020, Boubyan's electricity consumption reached 10,958,176 kWh. For this reporting year, the total amount of electricity consumed reached 6,624,000 kWh, resulting in a total KD 33,874 amount spent as an outcome of Boubyan's electricity reduction initiatives. Similarly to last year, the scope of total electricity consumption covers Boubyan Bank, Boubyan Capital, Boubyan Takaful, and Boubyan National. Stating that electricity performance data is not available for BLME and BB2 Tech Co as electricity is included within rent. However, the overall energy consumption for the entire building was significantly reduced compared to 2020 – as reported by BLME's landlord during the Cannon Place Green Team Tenant Meeting. Where it was reported that there was a -14% reduction in the overall energy usage of the building.

Boubyan's new headquarters (HQ), which is currently under construction, has been designed in line with LEED silver sustainability measures. In relation to electricity reduction considerations, the following represents some of the sustainability measures that would be included as part of Boubyan's new HQ:

#### Bui Des trai

#### **Building Envelope**

Design of a high-performance building envelope, which maximizes daylight and reduces solar heat transfer from extreme outdoor temperatures. This will reduce the amount of electricity required to heat or cool Boubyan's HQ throughout the year.

#### Energy Metering

Advanced energy metering measures have been incorporated into the design for all the energy sources used by the building. This will enable Boubyan to better track, monitor and manage its energy consumption, impacting electricity consumption efficiency and cost reductions.

#### Refrigerant Management

The refrigerant systems that shall be incorporated within the project are chillers. These chillers are R-134a refrigerant, which is one of the fundamental refrigerant management requirements of LEED. They require zero use of chlorofluorocarbon (CFC)-based refrigerants and will be placed in the new HQ building as a base for heating, ventilating, air conditioning and refrigeration (HVAC&R) systems.

Green Vehicles

The new HQ shall include parking spaces for electric cars, as means of promoting clean and renewable energy.

Monitored Environmental Performance In compliance with Kuwait Ministry of Electricity and Water (MEW) regulations, all Boubyan facilities use light-emitting diode (LED) lighting, which are considered highly energy and cost efficient compared to other types of lighting products. Likewise, Variable Frequency Drives (VFD) are installed for pumps in Boubyan Bank's new branches and are used for adjusting flow or pressure as per actual need and demand. This allows the control of electrical power that is supplied to the pumps and for more energy-efficient utilization. Furthermore, Boubyan is considering choosing low power rating equipment (air conditioners) for the purpose of lowering energy consumption to be installed in Boubyan's new constructed facilities.

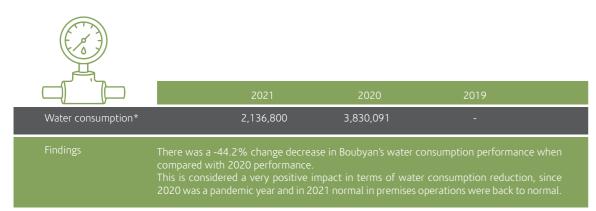

#### 5.3 Water Consumption

Boubyan strives to ensure minimal water consumption as part of establishing responsible operations that are environmentally sound. Due to the nature of Boubyan's business operations, the amount of water consumed is mainly derived from employee usage and facilities cleaning purposes.

In efforts of reducing water consumption, VFD has been also installed in certain Boubyan Bank branches, particularly for domestic water pumps as means of reducing and controlling water flow. Basin mixer sensor taps are planned to be installed in both Boubyan's new data center and HQ for water consumption efficiency.

Similarly to electricity consumption, water consumption data is not available for BLME and BB2 Tech Co. As reported by the Cannon Place Green Team Tenant Meeting, there was a slight decrease of water consumption during the year.

The following illustrates Boubyan's water consumption, expressed in imperial gallons (IG).

\*Applicable to Boubyan, excluding BLME and BB2 Tech Co subsidiaries.

Regarding water reduction considerations in Boubyan's new HQ, Boubyan National have planned strategies with the goal of enhancing water consumption efficiency, specifically regarding the utilization of indoor, outdoor and cooling water.

#### 5.4 Waste Reduction

Boubyan's operations generate 3 main types of waste, which are paper, plastic and electronic waste. Boubyan recognizes the necessity of minimizing its operational waste and the impact it has on carbon emissions reduction and landfill areas.

Due to the nature of Boubyan's operations, paper waste remains one of the main contributors to the overall waste produced. Therefore, Boubyan continues to innovate and automate its operations and introduce digital solutions that serve the transitioning of its client's journey into a digital one – with the purpose of achieving a paperless operation.

In an effort to reduce paper waste, Boubyan has minimized the number of printers in its facilities, by installing one centralized printer per department instead of having a printer for each employee. Water dispensers were purchased and distributed across all branches and facilities, as means of substituting the purchase and use of plastic bottles.

As regards electronic waste (e-waste), Boubyan sells produced e-waste to a third party that in return is responsible for recycling the waste and reselling it as scrap.

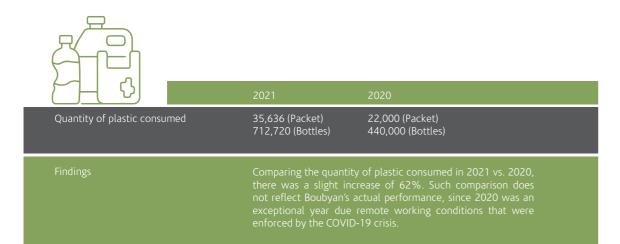

Boubyan aspires to develop and implement policies and procedures that address waste consumption reduction covering its whole operations holistically.

It should be noted that Boubyan's HQ shall incorporate an accessible dedicated area for the collection and storage of generated waste, segregated as waste to be recycled and landfilled.

The following illustrates Boubyan's produced paper, plastic and e-waste, respectively. The data presented is not applicable to our BLME and BB2 Tech Co subsidiaries.

$\times \times$	2021	2020	2019

# **6.1 GRI Content Context** Principles of Report Content

Principle	What it Means
Stakeholder inclusiveness	The report identifies its stakeholders and explains how Boubyan has responded to their reasonable expectations and interests. Their priority issues have been embedded within the conducted materiality assessment as outlined throughout the report.
Sustainability context	The report presents Boubyan's performance in the wider context of sustainability, taking into consideration various local and international sustainability enablers and frameworks
Materiality	The report covers aspects that: • Reflect Boubyan's significant economic, environmental, and social impacts; or • would substantively influence the assessments and decisions of stakeholders.
Completeness	The report includes coverage of material aspects and their boundaries, sufficient to reflect significant economic, environmental and social impacts, and to enable stakeholders to assess Boubyan's performance in the reporting period.

#### Principles of Reporting Quality

Principle	What it Means
Balance	The report reflects positive and negative aspects of Boubyan's performance to enable a reasoned assessment of overall performance.
Comparability	Boubyan has selected, compiled and reported information consistently. The reported information is presented in a manner that enables stakeholders to analyze changes in Boubyan's performance over time, and that could support analysis relative to other organizations.
Accuracy	The reported information within Boubyan's sustainability report is considered sufficiently accurate and detailed for stakeholders to assess Boubyan's performance.
Timeliness	Boubyan strives to report on a regular schedule so that information is available in time for stakeholders to make informed decisions.
Clarity	Boubyan aims for maximized accuracy of the reported information available in a manner that is understandable and accessible to stakeholders using the report.
Reliability	Boubyan has gathered, recorded, compiled and disclosed information and processes used in the preparation of the sustainability report in a way that they can be subject to examination and that establishes the quality and materiality of the information.
